

K-12 EDUCATION NETWORK SOLUTIONS

|| Private Fiber and Premium High Bandwidth Solutions ||

Sunesys is one of the top E-Rate service providers, committed to helping K-12 districts create customized wide area networks that seamlessly meet current education IT demands and future expectations. Our high-bandwidth and private fiber offerings provide you with the cost-efficient, flexible, and secure solution to your bandwidth needs.

■ SOLUTIONS

- ☐ SunE Switched Ethernet
- ☐ SunEP Managed Private Ethernet
- ☐ SunWave Private Wavelength
- ☐ SunDF Internet Services

■ COST EFFECTIVE

Our solutions allow you to consolidate services over a single WAN enabling you to simplify your network infrastructure. Our streamlined networks combined with our high-bandwidth offerings, easy upgrades, and flexible terms with no up-front costs offer one of the most cost-effective solutions available.

■ DEDICATED INFRASTRUCTURE

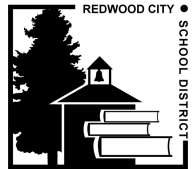

We use 100% Sunesys owned fiber for all of our wide area networks ensuring stability and reliability that other providers just can't match. Most districts choose our SunEP option providing additional peace-of-mind as all district traffic is over dedicated strands of fiber for an unparalleled level of security and reliability.

■ EXPERIENCE

Sunesys has been providing fiber optic WANs for school districts for over 15 years and in that time has become one of the leading E-Rate service providers - consistently ranking in the top 15 nationally in funds dispersed. We currently serve over 200 school districts and libraries in nine states.

Customer Testimonial

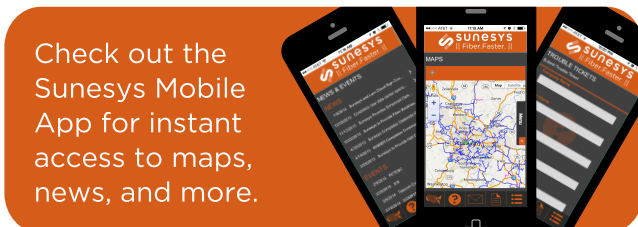

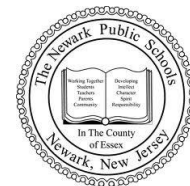

We've created custom solutions for K-12 institutions across the country including the Redwood City School District. Sunesys provided Redwood City SD with private 1Gbps connections between their hub site and 17 remote sites. The network significantly increased the bandwidth per student allowing Redwood City to increase technology offerings and prepare for online testing requirements.

"I was so lucky to find Sunesys, and the network you have given us did nothing short of change the way we do business. It has transformed the level of support and services the IT Department can provide, while being rock solid reliable and cost-effective. Sunesys has been a partner to us in every sense of the word."

Joseph Siam
Redwood City School District

About Sunesys

Sunesys is a leading provider of fiber optic networks and transport. We own, operate, and maintain our own high density fiber optic network in major metropolitan areas across the U.S. At Sunesys, we offer a comprehensive suite of tailored, high-capacity, facilities-based network services coupled with superior industry expertise, service, and support.

Sunesys is a subsidiary of Quanta Services, Inc. (NYSE: PWR). Quanta Services safely provides engineering, procurement and construction (EPC) services for comprehensive infrastructure needs in the electric power and oil and natural gas industries. With a workforce tens of thousands strong and offices across North America and abroad, Quanta is the premier provider in the industries it serves.
