

# GIRLS ARE...

Did you know, that by 3rd grade girls begin to lose confidence in their **math** and **technical** abilities?

And that by 7th grade they're no longer interested in a career related to technology, like **software** and **video game development**?

**CREATIVE!**  
**SMART!**  
**COURAGEOUS!**  
**RESOURCEFUL!**  
**AND**  
**CAN MAKE GAMES!**

That's why we're launching **Girls Make Games**,  
**Bay Area's first all girls game dev camp**  
that inspires girls to explore the world of video games.

## About Us

We are LearnDistrict, a studio based in San Jose, CA. We are committed to providing students with access to knowledge through our games and programs like GirlsMakeGames
