

The Premier Provider of Multi-Modal Communication Solutions

Emergency Notifications

In the event of a crisis, Regroup enables organizations to rapidly send emergency notifications to all popular communication methods, as well as to PA systems, digital signage, alert beacons and more. Administrators can enhance their Emergency Response Plan by giving Public Safety Officers access to send, receive and reply to messages using the systems two-way communication capability. Emergency messages can also be saved in advance and contain text, audio, video & attached documents.

Day-to-Day Communications

You can effortlessly achieve ROI by utilizing Regroup's platform to proactively communicate with multiple departments, suppliers and customers. Administrative costs will be reduced by having the ability to send thousands of messages per minute, drastically reducing time and manpower. An added benefit is that it will significantly increase the chances recipients receive messages about events, deadlines and updates due to the higher penetration rate obtained through multi-modal messaging.

Group Messaging

Unify departments by empowering them with the ability to send messages, including scheduled reminders, to mobile devices (text/voice), landlines, email, social media, forums and more. As Regroup allows administrators to create an unlimited amount of groups, as well as send unlimited messages, we boast the most cost-effective group messaging solution by offering a system that enables your entire organization to stay informed and involved in programs and events without incurring extra fees.

The Most Robust and Easiest to Use Mass Communication System

Clients choose us for the following reasons: Our system is robust yet easy to use, secure yet highly customizable, and because our 100% Software-as-a-Service system not only easily integrates into databases, but also saves you the time and hassle of software installation and server maintenance fees. Contact us today to test drive our platform yourself while on a customized demo tailored to fit your needs.
