Green4All,

I was very skeptical when you walked into my business Harmon Oil/Cob Ash in North Branch, MI to talk to me about your G4Xtreme Oil product and explain to me the benefits of using it throughout my fleet of 33 trucks. We have been in business since the 1980's and over the many years in business we have been approached by several sales people that claimed they had a product that could do the same as you claimed. The products that we tested over the years always yielded little to no result, so I was not expecting nor anticipating yielding any significant improvement in my fuel economy on the test vehicles. At the end of our test I was shocked on the results we yielded both in the Over the Road delivery trucks and in the local delivery trucks. Please see the graph's below for the results.

If you would have told me upfront that I would yield these types of results, I would have not believed you. These results do not measure the saving on the maintenance that I believe I will be seeing because of reduced friction and reduced operating temperatures. These results are only based on improved MPG. I am a true believer in your product and I would recommend anyone with a fleet to use G4Xtreme. Thanks for standing behind your product and bring a product to market that lives up to the claims that it makes.
