

Rethink Entertainment

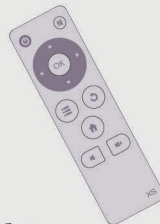

with the TOFU Media OS on the XIOS XS!

The TOFU Media OS is the all-in-one entertainment platform allowing you to fully customize your media experience. Easily organize and playback videos, pictures, music, movies, check the weather, and much more.

Apps & Customization

Make it your very own from apps to menus, shortcuts, wallpapers, colors, and much more to fully customize your experience the way you like it.

XS Remote

Using the intuitive remote, easily orchestrate your own concert or build your very own box office theater to enjoy what matters to you.

Elegance

A small footprint, but packs tons of features. From the out of box experience to TOFU, and to your entertainment center, you can upgrade with add-ons, accessories, and much more.
