SOUND CHANGING THE WORLD

# STATE-OF-THE-ART VOICE SOLUTIONS PROVIDER LED BY AWARD WINNING TEAM FROM NORDIC

## ADDASOUND

ADDASOUND is founded in Denmark by a highly experienced team of expertise in electro-acoustics field. The country has led the world's sound technology for a century; and the ADDASOUND team, whose members all benefited from solid academic accumulation of Danish universities, have also built an international reputation of innovation and excellence through a series of popular designs. In the past decade, these designs have won numerous major awards in the industry, including Red dot, CES Innovation, etc.

All these are based on our comprehensive understanding, abundant R&D experience and seamless cooperation on sound technology. The awards we have ever won were just an epitome of our pursuit of excellence: comfortable, delicate and stylish, without compromise on quality. This is where our confidence lies. With our innovation and market insight, we are on the way of building a global leading brand.

Our brand "ADDA" is adapted from the poems and tales of Norse mythology "Edda", while "SOUND" highlights the nature of the industry as well as the vision of ADDASOUND: Sound changing the world. Through our persistent efforts on improving voice input quality, we are making sound serve us better. Thus, we will also be better prepared to embrace the era of intelligent voice interaction, which we believe will play an increasing role in each aspect of people's life.

# SOUND CHANGING THE WORLD

## CRYSTAL 2801/2802

### ADDASOUND

ADDASOUND Crystal 2801/2802 are particularly designed products to meet the special needs of contact centers. With professional acoustic engineering, our products deliver a high quality audio performance. In all different environments, crystal-clear communication is ensured while your hearing is protected attentively. The advanced ergonomic design of the ADDASOUND Crystal series allows you to wear the headsets comfortably over a long time, making your work efficient and easy.

CRYSTAL 2801

# SOUND CHANGING THE WORLD

## OUR VISION

**Leading Technology:** Advanced Noise-Cancelling-Technology guarantees high-standard sound quality and best user experience.

**Simple Design:** Nordic style design perfectly combines outer simplicity and inner excellence.

**Delicate Details:** From product to service, we look deeply into every detail to meet your every need.
