

The Happiness of the Moy Virtual Jelly Pet by Frojo Apps

Enabled for Intel® Atom™ Tablets for Android*

The wildly popular Moy series applications are now available on Intel® Atom™ tablets for Android*. Moy, Moy 2 and Moy Crazy Doctor offer users of all ages the delightful ongoing experience of tending to the adorable jelly alien.

The original Moy app now ranks at 382 globally, with Moy 2 at 183 and Moy Crazy Doctor coming in at 657. These darling, interactive games allow users of all ages to dress, feed, bathe, play with and nurture their very own Moy. Moy 2 features built in mini-games, dance parties and a pocket garden where all ages can grow their own plants. Parents can encourage their children to learn about responsibility and health in a safe and rewarding way with Moy Crazy Doctor. Early development tools are incorporated into the games and activities so that young gamers absorb useful concepts and skills.

The bright, cheerful graphics, splendid sound effects and charming music all invite users to stay engrossed and interact with their special friends. The intuitive interface is easy to navigate and visually appealing.
