

Journal of Ergonomics

Open Access

Journal of Ergonomics is the study of designing equipment and devices that fit the human body, its movements, and its cognitive abilities. Ergonomics is concerned with the 'fit' between people and their technological tools and environments.

Journal of Ergonomics (JER) is an Open Access online journal which publishes original research articles, reviews and short articles in ergonomics on internet which are easy to access and freely available.

Journal of Ergonomics has many applications in the fields of aerospace, aging, health care, IT, product design, transportation. It draws on many disciplines in its study of humans and their environments, including anthropometry, biomechanics, mechanical engineering, industrial engineering, industrial design, kinesiology, physiology and psychology.

Journal of Ergonomics - Open Access uses online manuscript submission, review and tracking systems for quality and quick review processing. Submit your manuscript at
