

# BluePRO™ Bluetooth Interface for Mobile Cash Drawer Solutions

## Bluetooth-Enabled Cash Drawers

The BluePRO™ bluetooth device enables a printer-kick cash drawer to pair with a mobile device. Whether operating in a Thin or Mobile (Thinbilly) environment, the BluePRO™ interface allows retailers to wirelessly synchronize and create a one to one relationship between the cash drawer and tablet. The BluePRO™ interface achieves proximity when the mobile device comes within limited range of the drawer.

**Place it.  
Plug it.  
Pair it.**

## Key Features of the Model 510 BluePRO™ Interface:

- The Bluetooth device connects a printer-kick cash drawer so that it can be paired with a tablet
- Wirelessly synchronize and transfer data between a mobile device and cash drawer within a personal area network
- Proximity is achieved when the tablet comes within limited range of the Bluetooth device
- APG provides demonstration applications for Android, iOS, and Windows
- The BluePRO Bluetooth interface is Apple™ MFi certified for iPhone, iPod, and iPad

## BluePRO™ Bluetooth Interface Diagram:

\* Compatible with all APG model 320 MultiPRO interface cash drawers (requires cable CD005A)

\*\* Consult with your software provider to confirm compatibility
