

DIAL-IN CONFERENCING FOR OFFICE 365 LYNC ONLINE

Cloud|AG's InterCall dial-in conferencing for Lync Online integration provides Lync meeting attendees the option to listen to Lync audio through a phone dial-in conference number or through their PC. Plug-in extends meeting access while offering high quality audio with enhanced call controls.

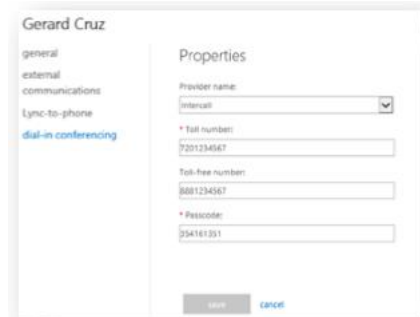

FEATURES INCLUDE:

- Listen To Lync Meeting Audio Via Phone or PC
- Toll Free Or Toll Lines
- Local Number Access
- Individual Conference Lines For Each Lync User
- Call scheduling via Outlook
- PSTN Dial-In and Dial-Out
- Lock/unlock
- Mute/Unmute
- Recording
- *0 in-call support

EASY SETUP AND ADMINISTRATION

Setup is a breeze! Simply add toll, toll-free and participant code information to each Lync user profile and next time they schedule a Lync meeting the dial-in information will be included.

COST EFFECTIVE

There is no setup fee or minimum monthly charge. You only pay for minutes used by people dialing into the Lync meeting via the phone. PC-to-PC Lync audio is still free!
