

Press Release: Aug 2014

Gintzler Graphics, Inc. Receives Walgreens Certified Print Packaging Supplier Status

Gintzler Graphics, an industry leader in retail packaging solutions for 98 years, announced that it has received full certification as a Walgreens Certified Print Packaging Supplier. The official certification was achieved as a result of a comprehensive audit of Gintzler's operations by Graphic Measures International (GMI), a quality assurance monitoring firm that validates the required process controls and ability to deliver consistent results. This certification enables Walgreens suppliers to use Gintzler.

The process to earn this achievement involved on-site evaluations by a GMI auditor of Gintzler's entire printing operation for flexography. The evaluation was organized around compliance for prepress, plate making, press, post-press operations, documentation, performance and training. Gintzler Graphics was approved and certified for full compliance and performance in all categories and met all of GMI's requirements.

Walgreens is the largest drug retailing chain in the U.S. and offers pharmacy products, OTC health and wellness solutions and consumer goods. Gintzler Graphics is approved to provide Walgreens branded print packaging with Walgreens appointed product suppliers.

About Gintzler Graphics

For nearly a century, Gintzler Graphics and International Print & Packaging have been synonymous with custom-made solutions and unmatched quality. With state-of-the-art facilities in New York and Texas, we have the ability to fulfill all of your needs on time. Every time. The cutting-edge offerings you need paired with the high-level of service you appreciate. That's what makes us the label leader.
