

The Space Flight Adventure of SimpleRockets by Jundroo

Enabled for Intel® Atom™ Tablets for Android*

Curiosity about the solar system is nothing new, but most individuals interested will never become astronauts. However, it's now possible to explore space from just about anywhere. The imaginative, vibrant, space adventure app of SimpleRockets has been optimized for Android* tablets. Users of this device can now see if they have what it takes to be a rocket scientist, and compete with others from around planet Earth.

SimpleRockets allows players to design their own rocket ships, blast off into space, and explore the solar system. Details count as players can choose from a variety of rocket engines, fuel tanks, and other gizmos; creations are only limited by the imagination. As virtual astronauts, players can blast off from any planet they choose, flying through the intense atmosphere of Venus or taking advantage of the low gravity of Mercury. Several challenges are built into the game, and players can compete to see who can go the fastest, fly the farthest, orbit with the least amount of fuel, and land on the moon.

On top of having a lot of fun, players will learn about rocket science and astrodynamics during this time of solar system exploration. SimpleRockets can provide entertainment and education to players of all ages.

The SimpleRockets Experience Reaches a New Gaming Audience with Intel Atom tablets for Android*

Tablets provide fans of the space exploration game with an expanded set of advantages. The high-resolution, sensitive touch screen enhances the energetic setting of the app, and the portability of the device allows play from anywhere. The latest optimization brings the brilliant environment of space challenges to life for its players.

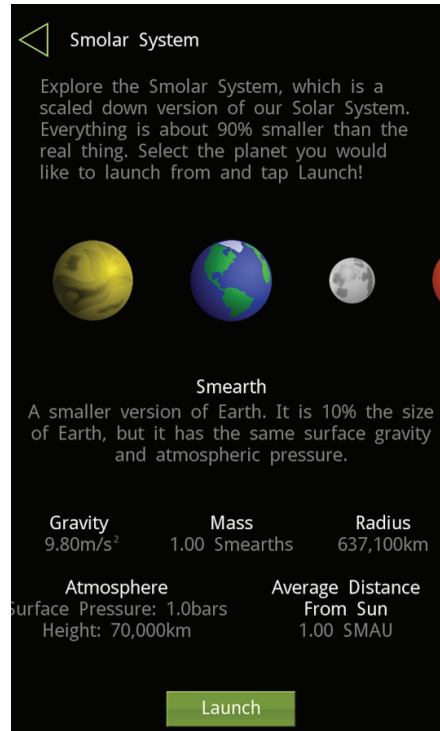

Users can now easily download the app and start their own space travels, with the versatility and mobility offered by Android* tablets. SimpleRockets presents players with enhancements and functions available only on high-performing platforms. With dependable, convenient play options, countless space adventures are here to last.

Features of SimpleRockets for Intel Atom Tablets for Android*
