# OneScreen<sup>™</sup> h1

## All-in-one collaboration hubware for meeting rooms and classrooms

OneScreen hubware delivers all of your familiar video, audio and web conferencing, whiteboarding, presenting, annotating, and sharing tools, at the touch of your finger, for barrier-free workflow.

#### One simple device. Unlimited options.

- Instant, centralized access to all of your preferred work tools for any type of meeting
- Supports all H.323/SIP video services and any standard web conferencing applications
- Ships with built-in OneScreen Connect video conferencing services
- Simple interoperability with laptop, tablet, and smart phone
- Work tools for every level user, from basic whiteboard to video collaboration

#### Easy to use, in any use case.

- Start a video call, web conference, or whiteboard session from a simple, central launch screen
- Customize OneScreen with tool choices your teams will use
- Share workspace and see video, exchange and annotate content, in real time
- One touch access to networked and online content
- · Set personalized user settings, triggered by login
- Live, on-demand help from Screen Skills Guru

### Affordable quality in a scalable design.

- Business class video and audio quality
- Unlimited video conferencing use plans with OneScreen Connect service
- Costs less than 20% of equivalent quality installed solutions
- Open architecture easily adds the next must-have application
- Platform agnostic to open up options, no forced application use
- Available OneScreen SoftServe deploys OneScreen to desktops and laptops

#### IT friendly.

- · Open architecture provides ease of compatibility
- Plug-and-play as a stand alone solution or integrated into installed system
- Screen Skills Guru minimizes help desk calls
- Built-on PC for simple upgrade with minimal down time
- Adjusts to bandwidth requirements
- · Resides on the network like any other PC
- Load any Windows-based application or proprietary program

## OneScreen<sup>™</sup> h1 Specifications

How do you want to work today? You choose. OneScreen Delivers.

OneScreen is people-centric technology. At Clary Icon we recognize that the barriers formed between disparate communication and collaboration technologies build barriers to how people work together. When workflow is interrupted, business, innovation, and growth slow down. OneScreen hubware breaks down the barriers to workflow and provides easy access to all of the tools, information, and people that users need irrespective of the technologies they prefer to use.

VIDEO CONFERENCING SOFTWARE	
Software and Bridging Service	OneScreen Connect comprehensive video and audio conferencing and collaboration services
Usage	Unlimited Multi-party Calls up to 99 Participants Using OneScreen Connect™ or WebRTC Unlimited Multi-party Calls up to 4 Participants using SIP and H.323
Select Features	Presence, Instant Video Calling, Instant Messaging, Instant Recording, Meeting Scheduler, Contact Status Indicator, Contact Communities, Individual Audio Control and Muting, Instant and Synchronous Screen, Content, and App Sharing, Call Answer Pre Set
Multi Camera Support	Up to 4 cameras can be supported with an added ASC
Data Sharing	Each user can share application or desktop into a single meeting simultaneously. Supports H.329 data share for legacy H.323 systems with that capability
Network Ports	Primary and only port needed - UDP 46000, Optional if not available - TCP 46000, 443, 80, additional ports information document available
