# Natural Medicine from the Olive Leaf.

Since ancient times, healers have used the olive leaf for its natural antibiotic and antioxidant properties, and as an immune system stimulator. Now, this knowledge is being proven through scientific research that has identified the presence of a robust antioxidant called OLEUROPEIN.

Oleavicin has harnessed this nutrient powerhouse, along with five other potent and natural ingredients, to create a soothing gel that provides instant relief for many skin conditions, including canker sores, cold sores, fever blisters, itchy, rashy skin, eczema, psoriasis, wrinkles, and more!
