What is ChirpE 365?

ChirpE 365 is a solution for event managers to engage their audiences year-round. This new offering, built on a2z's powerful Mobile & Social Media platform, offers event organizers a solution for syndicating many types of content to their extended community, including but not limited to attendees, exhibitors, members and sponsors, spanning event specific info, blog articles, newsletters, press releases, videos and white papers, throughout the year—24/7/365. In addition, the ChirpE 365 Native Mobile App allows event organizers to host content for multiple events on one mobile solution, offering a one-stop mobile shop for all of your event participants.

Features & Benefits:

- Leverages a2z's superior mobile and social media technology

- Simplifies year-round content syndication to your community members

- Facilitates social conversations through real-time social media integration

- Eliminates the wait time associated with deploying multiple event apps

- Delivers important alerts to users through the unique buzz notification feature

- Positions your organization as the go-to resource for industry information
