**Trapp Corp. Achieves Cisco Express Collaboration Specialization  
in the United States**

**Scottsdale, Arizona – July 28, 2014**– Trapp Corp. announced today that it has achieved the Cisco® Express Collaboration Specialization. This specialization recognizes Trapp Corp. as having fulfilled the training requirements and program prerequisites to sell, deploy and support integrated Cisco network solutions. The Express Collaboration Specialization brings together key solutions for Cisco routing, switching and wireless products.

“Trapp Corp. is committed to providing our clients with the highest quality collaboration solutions. With our latest Express Collaboration Specialization we can design, implement, and support customized Cisco unified communication solutions,” says Katie Yokose, Vendor Manager for Trapp Corp. “We’re excited to share this achievement with our clients, who are now further assured that they are working with a knowledgeable and dedicated Cisco Partner.”

Designed to focus on a customer’s collaboration infrastructure and to support new application capabilities, the Cisco Express Collaboration Specialization is a prerequisite for Cisco Premier Certification.

The Cisco Resale Channel Program provides a framework for partners to build the sales, technical and Cisco Lifecycle Services skills required to deliver Cisco solutions to end customers. Through the program's specializations and certifications, Cisco recognizes a partner's expertise in deploying solutions based on Cisco advanced technologies and services.

**About Trapp Corp.**

The Trapp Corp. companies, Trapp Online, Trapp Connect, and Trapp Tech combine the very best cloud, Internet, IT managed services, and IT consulting to provide a true all-in-one IT solution for businesses who seek to cut IT costs and leverage technology to grow revenues. Trapp Corp. services are designed to appeal to the growing number of medium-sized businesses looking to outsource more IT infrastructure and application management services to help reduce total cost of ownership and free up internal resources, as well as those companies seeking the skills and support to quickly complete complex IT projects.
