

# LEAN 101

*learn how to get the ball rolling at your business!*

## **LIVE WEBINAR - Tuesday, September 16, 2014 at 3:00pm** **LEAN 101 - How Manufacturers Can Accomplish More with Less**

Lean is the systematic approach to identifying and eliminating waste (non value-added activities) through continuous improvement by flowing the product at the pull of the customer. **This webinar will cover the basic lean principles to help your manufacturing business:**

- Reduce process lead time to better service customers
- Greatly improve throughput and asset utilization
- Open capacity for future growth opportunities
- Reduce work-in-process inventory
- Reduce set-up times
- Avoid unnecessary equipment expense
- Increase inventory turns per year
- Improve cash flow and bottom line

### TOOLS PROVIDED

#### SELF ASSESSMENT

All participants will be able to complete an anonymous self assessment to identify specific areas in their business which lean practices would have the most impact for them.

#### ACTION WORKSHEETS

You can't implement a lean program after just an hour of training, but you can follow some basic steps to start making a difference now!

### INSTRUCTOR WITH REAL EXPERIENCE

Larry Meadows has over 30 years of experience in manufacturing, and has spent the last 15 years helping transform hundreds of Florida companies. Larry started as an electronics assembler and has owned multiple manufacturing businesses. He now works for the nonprofit FL MEP, helping

to make manufacturers profitable in an effort to boost the state's economy. More info about the FL MEP can be found at [www.floridamep.org](http://www.floridamep.org)

Funding for this webinar is provided by the State of Florida's Department of Economic Opportunity
