Gateway Add-On Solutions

Simplify with Registration Gateway Add-Ons

Registration Gateway Add-Ons are a collection of applications designed to improve additional processes throughout your school or district.

Address Purification Gateway

Clean your addresses to postal standards and identify any changes of address within district.

Backfile Scan Gateway

Now that all of your new records are entering the school or district electronically with Registration Gateway, it's time to digitize the existing documents.

Reporting Gateway

Dynamically create reports on the file with Reporting Gateway. Now you have that 30,000 foot view of your registration progress, outstanding documents, expiring documents and much more...

Athletics Gateway

Simplify those athletic processes such as physical forms, permissions, and athletic registration all in one place.

Records Request Gateway

Remove the manual process and bottlenecks of record requests with a completely automated and online record request, delivery and fee request process.

ParentShare Gateway

Sending documents home to parents just became much less painful. With ParentShare Gateway, your parents can receive emailed documents as well as view copies in their own document portal. Eliminate the costs and headaches of printing and mailing with ParentShare Gateway.

	Gateway Add-Ons	Other
Address Cleansing	Yes <input checked="" type="checkbox"/>	No <input type="checkbox"/>
Enhanced Reporting	Yes <input checked="" type="checkbox"/>	No <input type="checkbox"/>
Automated Records Request	Yes <input checked="" type="checkbox"/>	No <input type="checkbox"/>
Parent Communications	Yes <input checked="" type="checkbox"/>	No <input type="checkbox"/>

Address Purification Gateway

District Address Validation and Cleansing

What is the Address Purification Gateway?

School districts are faced with the manual process of correcting student demographic data anytime new information becomes available through the SIS, Lunch Provider, Testing Authority, etc. This manual process leads to significant duplication and data integrity issues. The Address Purification Gateway identifies duplicate or incorrect addresses which can lead to state reporting discrepancies and potential for lost state and federal funding.

15%

or more of addresses in your district may be undeliverable causing headaches with your data management and more importantly your funding

Problem solved with a time tested two step process

Address Cleansing The first step is address correction which matches your district address against the USPS. Your district will be provided with the results of the address analysis as well as any recommended changes.

Address Moves and Changes The second step of the service is validating your data against SRC Solutions dynamic address change application to validate any moves within and more importantly outside of the district. Protect one of your district's most valuable assets; accurate and verifiable funding.

Back File Scan Gateway

Digitize your District

Incorporate all of the hard-copy paper student records currently stored in your archives --not just new registrations and transfers!

Easy In-House Scanning

The Back File Scan Gateway puts control of your archives into your hands—and dramatically reduces digital conversion costs.

- ✓ Includes state-of-the-art imaging software
- ✓ No lengthy training or specialized knowledge required
- ✓ No extra costs for an outsourced scanning service
- ✓ Simple, enforced indexing rules for consistent records every time
- ✓ Utilizes your existing scanning equipment

What is the Backfile Scan Gateway

The Registration Gateway Scanning Module from SRC Solutions provides you with a simple and cost-effective way to digitize and index the district's student registration documents—plus records from other departments, too.

Dashboards Gateway

When Reacting isn't Enough

"SRC Solutions Advanced Dashboard makes it easy and efficient to get the data that is important to us. This saves us time and provides better reporting functions for our organization!"

Advanced Dashboards and Routing

Your district registration process should not be a black hole. It should be a process with transparency to all layers of the district. From automatically routing important registration documents to viewing and acting on registration as it happens, the Dashboards Gateway provides the highest levels of proactive automation and simplification.

Athletics Gateway

Athletics Simplified

Simplified Online Sports Registration

Athletics Gateway combines your district process around eligibility, medical, and permissions to create and simplified Online Athletics Registration Solution

- ✓ Verify Eligibility
- ✓ Medical clearances including concussion protocols
- ✓ Collect and electronically maintain all medical records
- ✓ Emergency Action Plans

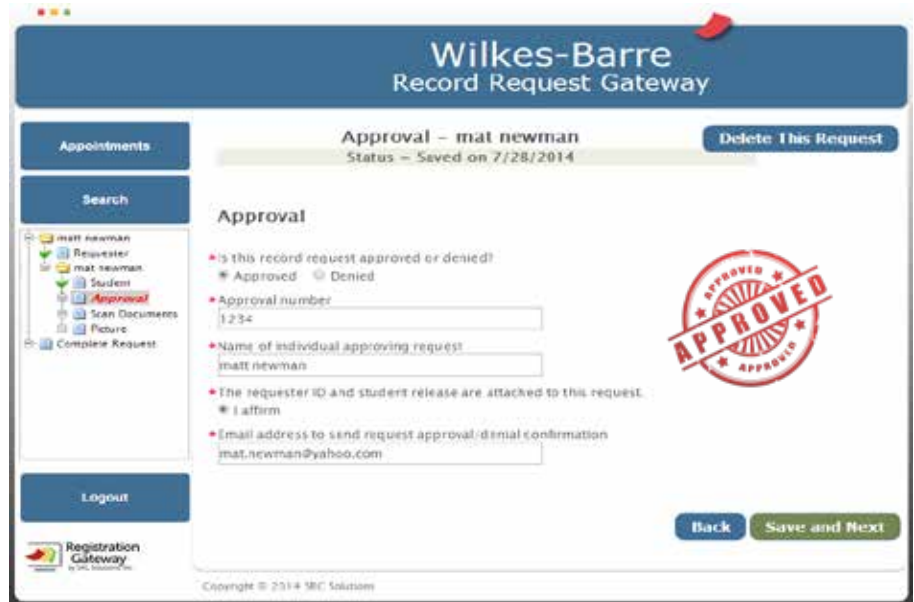

Records Request Gateway

Automated Records Request and Delivery

What is the Records Request Gateway?

Records Request Gateway breathes new life into manual and antiquated records request processes. By combining Online Records Requests with both electronic and traditional delivery, your district now has a simple way to request, deliver and track document requests. By catering to both lower and higher technology connected parent bases, Records Request Gateway can offer your district flexibility and cost savings.

Do Records Requests take your staff off task and create bottlenecks in your processes?

ParentShare Gateway

Communication Automated

ParentShare Gateway in Action

It's Report Card time and your most valued resources are taken off task printing, folding, stuffing and mailing. That time adds up to wasted resources.

With the ParentShare Gateway your district will be able to:

- ✓ Electronically deliver student specific reports via email
- ✓ Add reports to student specific electronic folders
- ✓ Protect sensitive student information through password protection both on the document and in the electronic student folder
- ✓ Schedule report deliveries
- ✓ Viewable permissions by parent and/or student

And the waste... Thousands of sheets of paper, pounds of toner, envelopes, stamps, etc. Now no longer needed with ParentShare Gateway from SRC Solutions.

What is ParentShare Gateway?

ParentShare Gateway is the first and last word in student record delivery and retention. Automatically delivering and archiving K-12 student reports eliminates the manual processes used today.
