Wi-Tronix®, LLC Commences Contract with SunRail through Data Transfer Solutions, LLC (DTS), Providing Remote Monitoring Solutions

BOLINGBROOK, Ill., September 18, 2014 - Wi-Tronix®, LLC announces a contract with Data Transfer Solutions, LLC (DTS), headquartered in Orlando, Fla. Through a subcontractor arrangement with DTS, the Florida Department of Transportation selected Wi-Tronix as the GPS remote monitoring solution for SunRail, a Central Florida commuter rail service provider.

Under the contract, SunRail can access on-board data from the trains to improve SunRail's asset management. Using Wi-Tronix's products, SunRail can track and monitor the fleet's locations. Train location information gives SunRail the ability to provide passengers with accurate station announcements and improve customer service. Monitoring train arrival and departure times allows SunRail to track results for compliance to schedule and on time performance. SunRail can better its operational efficiencies and service reliability to customers.

Overall, SunRail will utilize Wi-Tronix's array of tools and services to monitor and measure efficiencies, safety and security for SunRail's fleet. Improved asset management leads to cost reduction and improved performance for SunRail and better service for its customers.

About Wi-Tronix, LLC
Wi-Tronix, LLC, headquartered in Bolingbrook, Ill., provides products and services to wirelessly monitor high-value mobile assets used in rail, marine and other commercial and industrial operations. Wi-Tronix's mission is to enable businesses to improve the operational efficiency, service reliability and safety of high-value mobile assets.
