

# ENVISIONING A NEW GLOBAL ENERGY CIVILIZATION

*Energy for All*

WORLD ENERGY FORUM

# WORLD ENERGY FORUM IN MISSION

World Energy Forum is leading international conversation on energy issues and educates and campaigns for safer, more accessible, and more sustainable energy, and facilitates political will of all nations and peoples as well as research, technological advancement, and capacity-building so as to achieve a new global energy civilization of energy for all.

# WORLD ENERGY FORUM **IN ACTION**

## WORLD ENERGY FORUM SUMMIT

Creating an energy secure-world that can benefit all nations and peoples necessitates the commitment from the highest political authority and international cooperation; therefore, World Energy Forum annually organizes meetings of the Heads of States.

## WORLD ENERGY FORUM REGIONAL SUMMIT

To provide solutions to regionally specific issues, World Energy Forum annually organizes meetings of the regional groups of the Heads of States; there are American Energy Summit, European Energy Summit, Asian Energy Summit, and African Energy Summit.

## **FIRST LADIES SUMMIT**

World Energy Forum annually organizes First Ladies Summit to highlight women's essential role for sustainable development and to lead women's empowerment worldwide.

## **WORLD ENERGY FORUM ANNUAL MEETING**

World Energy Forum meets annually in world capitals and brings together leaders from government and private sector which provides a global platform for policy and technological advancement as well as business development.

## **HIGH-LEVEL CONFERENCE ON ENERGY AT THE UNITED NATIONS**

World Energy Forum annually convenes leaders from governments and private sector from the United Nations Member States and discusses topics pertaining to international energy issues.

## **WORLD ENERGY AWARDS**

World Energy Forum annually bestows World Energy Awards upon outstanding individuals or organizations whose contributions are internationally recognized; there are Humanitarian Award, Technology Innovation Award, Best Practice Award, and Energy Minister of the Year Award.

## **WORLD ENERGY FORUM UNIVERSITY CHAPTERS**

World Energy Forum University Chapters are membership-based groups at university communities throughout the United Nations Member States that are organized to support the mission of World Energy Forum.

## **WORLD ENERGY MONITOR**

World Energy Forum publishes monthly World Energy Monitor: Leading the Global Conversation, which presents timely, informative and challenging insights in a balanced, nonpartisan context.

## **SMART ENERGY MOVEMENT**

Smart Energy Movement (SEM) is to campaign for smart ways of energy practice by all constituents worldwide; Smart Energy Index (SEI) is instituted to globally monitor the progress and make recommendations for future advancement.

## **WORLD ENERGY FORUM CLUB OF DUBAI**

World Energy Forum Club of Dubai is an international gathering of energy ministers of the United Nations Member States whose mission is to promote national and international energy policies that reflect a harmonious global perspective for worldwide economic and social development.

## **WORLD ENERGY FUND**

World Energy Fund provides technical expertise and strategic and financial support to energy projects internationally.

## **THE WORLD WATER ORGANIZATION**

The World Water Organization (WWO) facilitates promulgating national and international water policies, research and technological advancement, and coordination of international water resource management and humanitarian outreach.

## **NEW YORK INSTITUTE OF ENERGY AND WATER**

New York Institute of Energy and Water is a global research institution of higher learning, fulfilling the educational mandate of World Energy Forum.
