

Charting a New Course to Coding Success

ICD-9/ICD-10 Coding Training Program from HomeTown Health

Full steam ahead!

The postponement of ICD-10 is not a time to pause in preparing for the transition. Rather, it gives hospitals and providers the opportunity to spend *one more year* ensuring they are prepared for the change – training additional or new staff, reviewing complex code sets, and testing facility preparedness. This program is designed to provide a clear course to help improve coding practice *now*, and to prevent future drops in productivity when the change to ICD-10 does occur in October 2015.

Mark your calendars!

Sign up deadline for the program: September 30

The 2014-2015
ICD-10 Training
Program Kickoff
Webinar:
October 15, 2014 at 10am.
