

# clinCapture

## THE ONLY FREE VALIDATED EDC SYSTEM

Clinovo's cloud-based EDC system is an automated self-service platform offering a user-friendly interface and pay-as-you-go features to build and manage clinical studies. ClinCapture is the only free validated EDC system on the market. ClinCapture removes IT dependency, brings significant savings compared to existing solutions in the industry, while meeting regulatory compliance requirements.

### BUILD AND DEPLOY YOUR STUDIES FASTER

**FORMS STUDIO** / The first free and self-service CRF designer allowing you to create and manage your own CRFs without any programming knowledge. Its user-friendly drag-and-drop interface lets you build simple to complex CRFs in a matter of minutes.

**RULES STUDIO** / ClinCapture's Rules Studio is a drag-and-drop graphical interface to build rules within ClinCapture such as edit checks, without any programming or IT expertise.

“ Clinovo takes into account all our requests and makes it work for us. We truly feel valued and listened to. I look forward to continuing our relationship with Clinovo. ”

*Graham McLennan  
Senior Director of Clinical Operations*

“ ClinCapture ranks among the leading open source systems and is one of the hot technologies for the clinical trial industry to follow. ”

“ I was impressed with the team's responsiveness and great communication at all levels of the organization. ”

*Mark Niederauer, Ph.D.  
Chief Technology Officer*

## Intuitive

- Short learning curve
- Drag-and-drop tools

## Flexible

- Advanced customization
- Pay-as-you-go features

## Proven

- Customer endorsed
- 21 CFR Part 11

### STUDY BUILD

- Superior paper-like CRFs
- Drag and drop tools

### VALIDATION

- 14-step validation model
- Successful sponsor audits

### HOSTING

- Full disaster recovery
- Cloud-based hosting

### INTEGRATION

- eClinical systems integrations
- CDISC ready

### TRAININGS

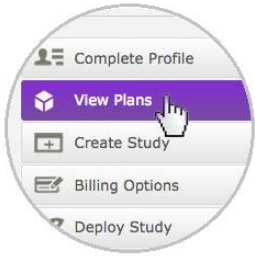

- On-site personalized trainings
- Self-guided online courses

### SUPPORT

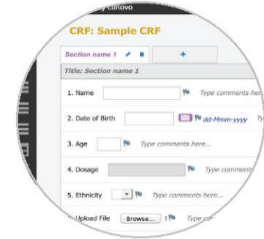

- Dedicated helpdesk
- Around the clock support
