

XMediusFAX® CONNECTOR FOR LEXMARK eSF – ENABLED MFPS NOW AVAILABLE

THE XMediusFAX® LEXMARK eSF CONNECTOR ENABLES LEXMARK MULTIFUNCTION PRINTERS TO SEND AND RECEIVE FAXES DIRECTLY, SECURELY AND EFFICIENTLY.

MONTREAL, Canada (October 3rd, 2014) - Sagemcom, the global leader in FoIP solutions, announced today the release of the XMediusFAX® connector for Lexmark multifunction printers (MFPs) compatible with the Embedded Solutions Framework (eSF) platform allowing users to send and receive faxes from their MFPs.

The XMediusFAX® connector for Lexmark eSF gives access to key fax features right on the Lexmark MFP control panel, providing a simplified and intuitive user experience. The connector extends more advanced capabilities found within XMediusFAX® and XMediusFAX® Cloud solutions onto the MFP device, including functionalities such as: creating fax cover sheets, accessing personal phone books, simplified or normal display interface etc. Additionally, the user interface of the XMediusFAX® connector for Lexmark eSF is available in 7 languages: English, French, German, Spanish, Italian, Portuguese and Russian.

Also by integrating XMediusFAX® with the Lexmark MFPs, sensitive documents are protected by delivery directly to authenticated recipient's e-mail inbox. This also increases employee productivity and efficiency as they are no longer have to wait by the MFP for fax transmissions.

"This new connector provides Lexmark users with a tamper proof document transfer solution that facilitates faxing by leveraging their existing MFPs thus responding to today's business realities", stated Jean Champagne, General Manager of Sagemcom Canada.
