VerticalRent is FCRA and PCI-DSS compliant online rental property software. Our product is designed to assist property managers and landlords with a wide variety of tasks, including easy-to-use rent payment processing. VerticalRent is one of the nation's fastest growing online rental property management systems due to top-notch customer support, affordability, and easy-to-use software.

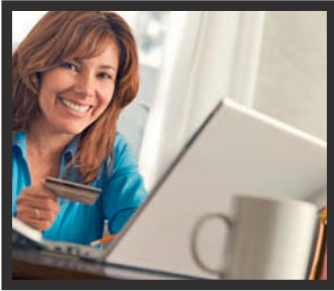

Payment Processing

Landlords and Property Managers can accept and manage resident payments through a simple, easy-to-use online interface. Providing convenient payment options for residents helps landlords and property managers save time, money, and hassle. Our software is designed exclusively for landlords who are fed up with collecting and depositing paper checks. We are trusted by thousands of landlords and property managers nationwide for payment processing and tenant screening.
