

all my
CHILDREN
DAYCARE & NURSERY SCHOOL

*A Leader in
Quality Education*

Discover: We recognize the benefits of play based learning where children learn to communicate their thoughts, feelings and needs to others. Children are invited to play and explore in a secure environment where they can confidently tackle new situations and discover their surroundings.

Learn: All My Children's professionally trained staff not only provides children with a solid foundation in literacy and scientific-mathematical thinking, but seek to promote a life-long appreciation of learning through emphasis on the joys of discovery and the empowerment of choice. Our core curriculum is enhanced by activities that allow for children to creatively express themselves, such as dramatic play, music, movement, art and dance.

Grow: The first years of a child's life are critical in shaping their future, health and development. We acknowledge that the changes we make to improve our children's environment can have a profound impact on their small bodies. Therefore, we are committed to reducing environmental hazards in our centers and providing children with an eco-healthy environment so they can grow into healthy adults.

Our Program

At **All My Children** we are committed to preparing young children for school and life readiness. Our safe, nurturing, eco-friendly learning environment and ethical character define our dedication to instilling within each child the skills. Using The Creative Curriculum, Common Core standards, Music, Movement, Drama and Nature programs, we form the foundation of our learning-centered program

All My Children Daycare's curriculum is full of play-driven, hands-on learning and innovative instruction. We offer programs for Infant, Toddler, Nursery, Pre-K, Special Education, and Universal Pre-K. Our programs are tailored to meet the needs of the children and communities we serve. We seek to challenge and cognitively engage our children, providing them with exciting learning opportunities throughout the day.

We encourage our teachers and staff in their continuous growth as learners through professional development programs and courses

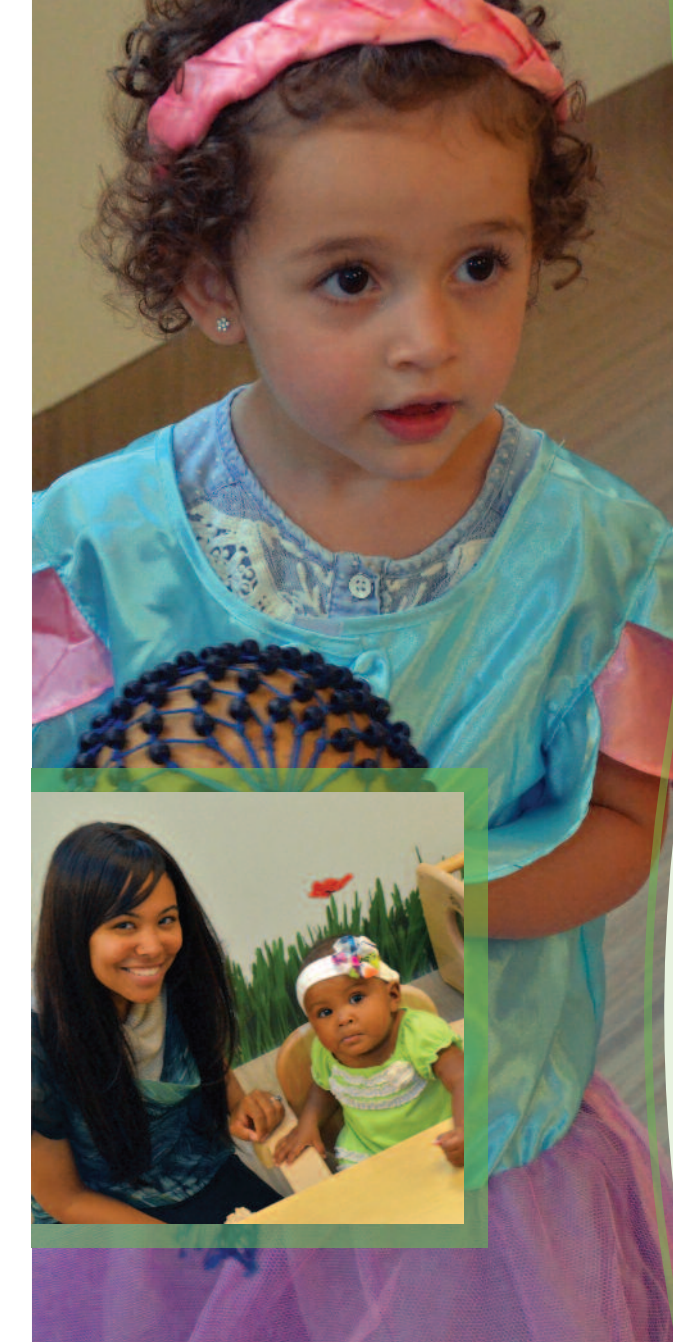

Our Facility

Being environmentally sustainable is important to us. Our furniture, decor and art supplies are all eco-friendly and safe to use.

Children will have the pleasure of learning through nature using all five of their senses. In our organic outdoor soil and indoor hydroponic gardens, children are empowered with the responsibility of planting, watering and watching their work interact with the sun and air to produce new life.

Safety is our top priority, which is why we have secure locked gates and doors and security system installed. We also, have the local safety patrol circling the block during the hours of operations.

With 7,500 sq ft and 6 classrooms we are able to give each child the attention they deserve and enough space to comfortably learn and play. The classrooms incorporate live aquariums filled with living and growing plants and animals. Interactive chalk and cork boards have been installed to enhance visual and interactive learning.

Our Reputation

All My Children Daycare has over 20 years of experience and 13 centers in the NYC metropolitan area. We have a long-standing relationship with the children and parents who are your friends and neighbors. Our curriculum is designed to develop responsible and inquisitive children with a thirst for learning, an ability to focus and the desire to add to their world. Our longevity is a testimonial to our success, but no one can say it better than our parents!

All My Children provided an opportunity where children come first and learn from our best certified teachers....

— Agnes Martinez, Parent

*A daycare experience your child will cherish!
An all-in-one positive, educationally rich, and
environmentally friendly milieu in a state of the art
facility, for children to learn and blossom!*
