I received my second one today. My first purchase was to use on my computer chair at home. I noticed immediately I wasn't feeling the tingling and nerve pain in my neck. It was such a relief that I ordered a second one to use on my computer chair at work. A million thanks to all involved in creating this wonderful product!

I am very happy with my pad. I did upgrade to their sports model for my Sciatica problem. Very happy with the company for letting me return and upgrade. I highly recommend the product and the company.

**I am truly amazed how well this cushion works** By Alan P Herman

I purchased this seat cushion to use at work with my antique wooden office chair. As you can imagine "tush fatigue" has always been a bit of an issue however I was also beginning to experience some discomfort in my right hip after sitting for long periods. I am truly amazed how well this cushion works. My so called "tush fatigue" is not something I suffer from anymore and my right hip is no longer bothering me when I sit. I also bought a cushion for my wife to use in her company car which has pretty cheap and uncomfortable seats. She also really likes the cushion. Thanks

**Love It!** By Mr.E.Mann

I don't know what the liquid is. All I DO know is that this pad has changed the quality of my life at work and at home. I drive a school bus over 130 miles a day. I was getting very sore legs by the end of the day and my butt was actually starting to sting also. This has solved BOTH problems. I also use it on a hard chair to do work at a desk at home which was not meant for sitting on for long periods. I used the pad on it this weekend and was able to work on my projects for over two hours with no discomfort.

**It's WONDERFUL!!!** By Jan L. Ross

I don't know what's in it but it is WONDERFUL!!! My husband and I both have one for our SUV which has seats that aren't comfortable for a long car-trip. Just got back from a 2000 mile trip with NO hip or leg problems!!

**BEST SEAT CUSHION I'VE EVERY HAD!** By Michael

This special cushion has helped me so much ! I do a lot of driving and since using this product I have no lower back pain after using this technology. I recommend this Seat Cushion for everyone that owns a car. It really is quite special and I've never owned anything like this before. I also do long distance air travel and will bring it with me on these flights. Wonderful product and so glad to find something like this. No more twisting and turning in my seat. I arrive in a much better mood now. Thanks so Much !
