

Services For Accessible

Websites Software Documents

Designed and delivered by people living with disabilities

Verifying accessibility for real people

WeCo uses a human-based testing approach to accessibility. Our team of trained user-experience test consultants, all of whom live with disabilities, verify your project for accessibility against Section 508, WCAG 2.0 and WeCo's Standards of Access® criteria. This means that our clients receive testing results that are 100% based on how real people use their websites, software, eBooks or documents.

Contrast that with the 25% accuracy rate of automated accessibility testing* and you'll understand why WeCo's Certified Test Consultants deliver exactly what you need to know to make your project accessible to real people. (*SSB Bart, Incorporated, 2013)

Accessibility Compliance: WeCo's Access Approved® Testing Services

A platinum standard in the accessibility testing industry, WeCo's Access Approved Testing Services are delivered by a team of Accessibility Specialists and Certified Test Consultants who verify websites, software products, eBooks and other electronic venues for accessibility by people living with disabilities.

We do this by employing WeCo's Standard of Accessibility® including:

- Section 508 of the Rehabilitation Act of 1973 (Section 508 VPAT)
- Web Content Accessibility Guidelines (WCAG 2.0)
- Americans with Disabilities Act
- Additional customized criteria developed by WeCo's Advisory Board, Accessibility Specialists and Certified Test Consultants

Agile Accessibility: Access Check-In Services

WeCo provides a fast, low-cost service for organizations who need to check small portions of websites, documents or software products with Access Check-In Services. This service is perfect for the development or redevelopment phases of your project. Simply send us the URLs or PDFs, and we'll put one of our testers to work. Within 5 business days you'll receive a short, concise report of what is inaccessible and accessible in your project.

Accessible Assurance: WeCo's Document Services

Whether you wish to train your staff in accessible PDF format on Microsoft document procedures, or prefer to have us convert existing documents into an accessible format, we have services to fit your needs

What's In It For You?

Accessibility needs assessment and planning

A WeCo Accessibility Specialist is assigned to you to help you determine your organization's accessibility needs and to plan the best way to address them. This personal touch is part of WeCo's mission and dedication to you.

Training and testing for accessible compliance

At WeCo, everything we do has the "human touch." It begins with training customized to your organization's needs, delivered by our Accessibility Specialists. It ends with accessibility verification testing for Section 508, ADA and WCAG 2.0, delivered by the very people you're designing for: individuals living with disabilities.

WeCo's Access Approved® Testing Services enable your organization to display the WeCo Access Approved® logo. The WeCo logo provides instant recognition of online venues that are accessibility-friendly to people who live with disabilities.

What WeCo Provides

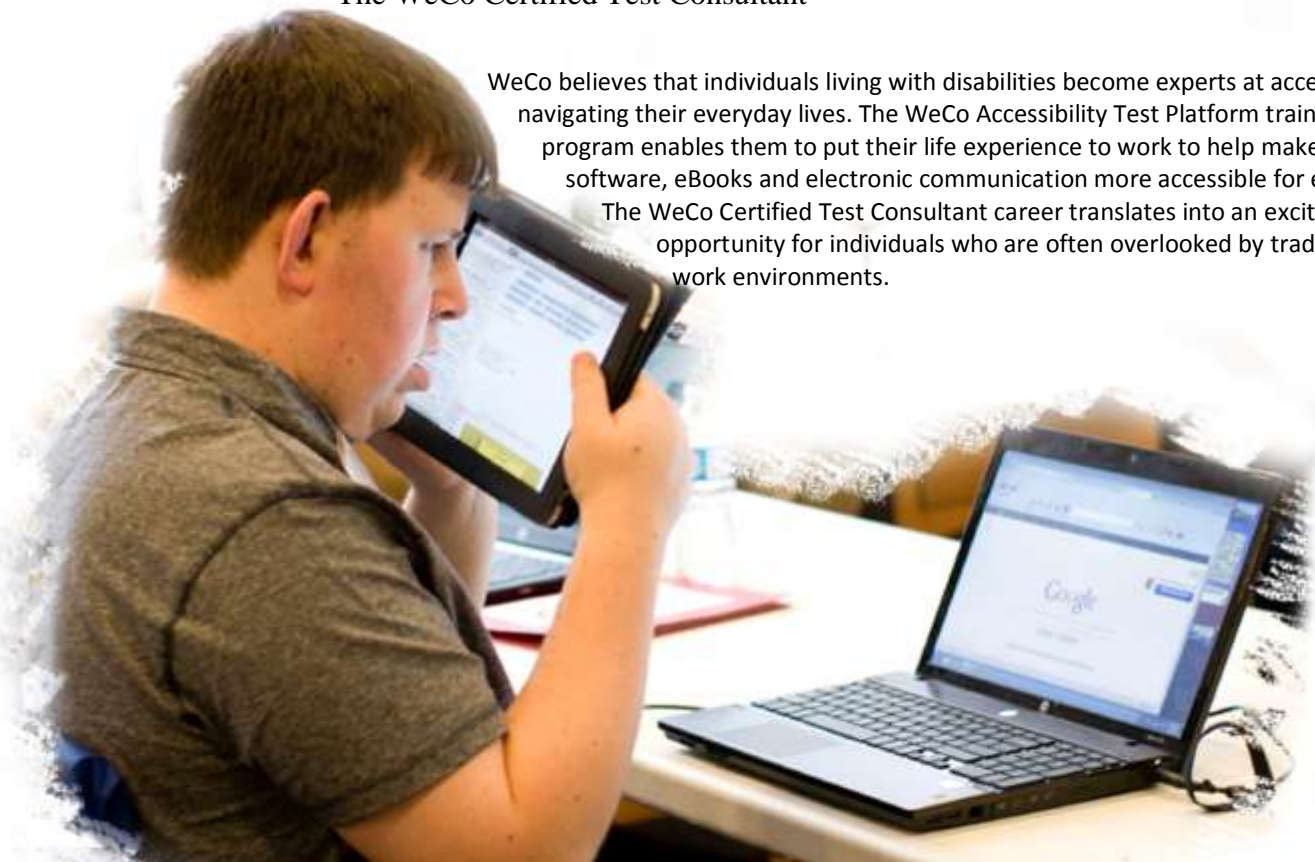

The WeCo Accessibility Specialist

WeCo's team of Accessibility Specialists represents a variety of professional backgrounds including accessible web design, data analysis and psychology. Each specialist lives with a disability, giving them unique insight into the needs of your disabled customers. These dedicated individuals handcraft test cases and reports as well as deliver client training and assist with accessible remedies for your projects.

The WeCo Certified Test Consultant

WeCo believes that individuals living with disabilities become experts at accessibility by navigating their everyday lives. The WeCo Accessibility Test Platform training program enables them to put their life experience to work to help make websites, software, eBooks and electronic communication more accessible for everyone.

The WeCo Certified Test Consultant career translates into an exciting opportunity for individuals who are often overlooked by traditional work environments.

THE PROCESS

Accessibility is a Skill Your Staff Can Learn

Everyone needs to understand accessibility

WeCo provides accessibility training courses to help all of your employees understand how accessibility works and why it is so important. Easy to digest and highly interactive, we customize this training to your organization's needs.

Accessible skill enhancement for web, software and content management staff

WeCo's "Designing for Access" training is a highly customized and interactive experience for your web and content managers as well as your software engineering staff. Taught by our Team of Accessibility Specialists, we will guide your employees through common pitfalls to accessibility and practical fixes, to make your websites, software and documents accessible to real people living with disabilities.
