

UOB Bullion and Futures helps Strengthen Its Trading and Clearing Capabilities with SunGard's Post-Trade Cross-Asset Processing and Managed Services

November 20, 2014

UOB Bullion and Futures (UOBBF), the brokerage arm of United Overseas Bank (UOB), has deployed [SunGard's post-trade cross-asset processing solution](#) and managed services to support its trading and clearing services on major global exchanges.

SunGard's managed services will support UOBBF's cross-asset trading and post-trade processes, including clearing, custody and settlement, across Asian and global markets. SunGard's depth and breadth of expertise in global markets as well as its true multi-market, cross-asset class systems will also offer UOBBF access into new markets and product lines.

In the past year, UOB has expanded its derivatives business to major global exchanges including the Eurex Exchange, CME Group and the Dubai Gold and Commodities Exchange through clearing memberships. UOB is also the first Asian bank to offer clearing services for transactions on the Eurex Exchange.

"SunGard's robust cross-asset solutions have allowed us to enhance the efficiency of our back-end operations for the trading and clearing of various asset classes including derivatives, foreign exchange and securities. This translates to a faster onboarding process and shorter time to market when creating investment opportunities and products for our customers."

– Matthew Png, CEO, UOB Bullion and Futures

"SunGard is pleased to work with UOBBF as a technology provider helping it expand its business and achieve its strategy. Our managed services allow UOBBF to focus its talents on initiatives that will help differentiate it from its competition and help meet the needs of its clients and shareholders. This is further proof that our solutions can support both the regional and global requirements of leading financial firms. Through our cross-asset solutions and services, proven infrastructure, innovation and leadership in the industry, SunGard is able to help firms such as UOBBF operate smarter, while assisting it in achieving cost efficiency and a competitive advantage in the marketplace." – **Nasser Khodri, managing director, Asia-Pacific, SunGard's capital markets business**

As a real-time, flexible and cost-efficient cross-asset class back-office processing system, SunGard's post-trade solutions help financial institutions streamline their processes, while helping them manage their business and regulatory challenges. SunGard's managed services solution can help financial institutions experience a lower total cost of ownership, greater efficiency and faster time to market speeds.

"... trading volume of derivatives in Asia grew at a compound annual growth rate of 7.8 percent to 7.3 billion from 2008 to last year¹."

"UOB first Asian bank to be Eurex Clearing member", Straits Times, 19 May 2014

About SunGard Financial Systems

[SunGard Financial Systems](#) provides mission-critical software and IT services to institutions in virtually every segment of the financial services industry. The primary purpose of these systems is to automate the many detailed processes associated with trading, managing investment portfolios and accounting for investment assets. These solutions address the processing requirements of a broad range of users within financial services, including asset managers, traders, custodians, compliance officers, treasurers, insurers, risk managers, hedge fund managers, plan administrators and clearing agents. In addition, we also provide professional services that focus on application implementation and integration of these solutions and on custom software development.
