*Enabling the integrated Enterprise Project Management and Cost Control solution*

*P360 integrates Primavera Unifier and Primavera P6 to bring enterprise level visibility into your project schedules and costs.*

### Company Overview

Gaea Global is a global services company that unites its pioneering knowledge of Oracle Enterprise products, specifically Oracle Primavera and Oracle Supply Chain, with its deep domain expertise of industry verticals to create the best software solutions for its customers. It leverages its global reach, lower cost base, round the clock service, to deliver fundamentally superior ROI. Gaea has an established track record as Oracle Platinum Partner of delivering unrivaled value and customer satisfaction to its client's worldwide.

### Integration Overview

Gaea's P360 is a comprehensive P6-Unifier integration solution that provides an unparalleled owner-centric view to manage capital-intensive projects in project intensive organizations. Gaea's P360 is the bi-directionally integrated schedule and cost control solution which addresses owner's needs around effectively managing their projects' lifecycle from cradle to grave.

### Key Features

- Project Creation synchronized between P6 & Unifier based on project approval
- Budgets, Contracts and Changes summary level cost information in P6
- Primavera P6 schedules integrated with Unifier for accurate EVM/Cash Flow
- Progress Reporter data transferred into Unifier (Internal Costs)

### Integration Details

In an owner-centric environment, the availability of key project data at the right level of detail is key for tracking, managing and executing large complex capital construction projects. Gaea's P360 solution enables the appropriate roles to make sound decisions based on data that is available across multiple systems. Gaea's P360 enables bi-directional flow of key project data that alleviates the problem of silos of enterprise project data across systems.

### Validated Integration

Primavera P6  
Enterprise Project  
Portfolio  
Management

**Oracle Validated Integration gives customers confidence that a partner's integration is functionally sound and performs as designed. This can help customers to reduce deployment risk, lower total cost of ownership, and improve the user experience related to the partner's integrated offering.**
