

# PACIFIC COAST DETOX

## Why should you choose PCD?

Recovery starts with **Pacific Coast Detox**.

Alcohol and drug detox is our specialty. We know that stopping on your own can be dangerous, causing severe health problems which can be fatal. Our program is designed to follow the directives of the referring physician.

We treat each client with respect, dignity and compassion. We offer a home-style environment that is comfortable, complete with home cooked meals. Our high counselor to client ratio allows for outstanding attention and care.

We understand that women and men have unique needs so we have created a gender-specific detox center.

Our detox stabilization program includes a complete range of clinically proven practices.
