

Letter From the Investor Family

Dear CanAm Enterprises Team,

Five years! It had been a long journey, but it was so meaningful, so significant, and so worthy.

Today, we wrapped up with not only full refund, but also full satisfaction, and much more. We all have gotten green cards, my wife is going to the citizenship ceremony next week, and my daughter will get automatic citizenship then because she has not reached 18. Meanwhile, we are learning English, traveling across the country, and getting familiar with the new land, our new home. We just love it.

Even though we had a hard and anxious time during the condition removal process because of the vague law glossaries, we had the utmost belief in you, always, and never lost hope: you are so sincere, and we know that you concerned for our worries as much as we did, and are on our side working hard, never stopped, protecting our rights. Because of your persistence, we went through it, and we have gotten everything in time so smoothly later on.

We feel so excited because of this perfect ending. We feel so lucky for having chosen you.

A lots of appreciations, A lots of thanks to you, from deep inside our hearts!

Mr. Su, investor in the Time Warner Project
