

## **SaaSplaza NAVonAzure.com unlocks NAV 2015 on Azure globally for Microsoft Dynamics Partners**

After provisioning more than 50 NAV 2015 on Azure trials, 2014 Inner Circle for Microsoft Dynamics member SaaSplaza now offers free demo environments to all Dynamics Partners.

Dynamics Partners and their Customers across the world are rapidly embracing the mobile-first, cloud-first capabilities of Microsoft Dynamics NAV. To experience NAV 2015 on Azure for yourself, simply go to <http://www.navonazure.com> and request your free demo.

“NAV 2015 on Azure, integrated with Office 365, provides an amazing Cloud ERP user experience, combined with the cost and agility benefits that Cloud delivers to business,” said Berend-Jan van Maanen, SaaSplaza CEO. “The positive feedback from the Dynamics Partner channel so far proves that this sort of Cloud innovation is exactly what the market needs to increase Cloud adoption.”

“Plus, in combination with Microsoft’s current promotions for “On Azure” and “In Office 365” Subscription Licensing, there has never been a better time to Go Cloud” he said.

New features available in Microsoft Dynamics NAV 2015 include tablet applications for multiple operating systems, complete Office 365 integration and a host of other productivity and usability improvements.

“Innovation continues to drive the development of Microsoft Dynamics. SaaSplaza is also committed to innovation. Our commitment is to maintain our position as the most advanced Cloud systems integrator for Microsoft Dynamics, particularly on Azure, as that platform becomes the default choice for all Dynamics products,” said Mr. van Maanen.

The new NAV 2015 features, and even more options, are available on Azure or Private Cloud NAV 2015 production environments through SaaSplaza. With SaaSplaza the Power of Choice is yours, to deliver for every customer exactly the NAV Cloud solution they want.

Other options include the choice of Windows or Web clients, ISV solutions and customisations, Office 365 and Subscription Licensing Services, all available through SaaSplaza.

### About SaaSplaza

SaaSplaza is the leading global Cloud Services provider for Microsoft Dynamics NAV, AX, GP, SL and CRM. Through our services, SaaSplaza’s vision is to enable Microsoft Dynamics Partners around the world to build a Cloud business, powered by Microsoft Azure or Private Cloud.
