- No Delays

WASH / COLLECT / RECYCLE

Hydropad Wash Racks

Hydro Engineering's green technologies are leading the way that equipment washing is completed for maintenance in remote environments.

These wash racks have to meet all mine site safety requirements and very stringent environmental concerns, including high-traction, non-slip working surface.

The design also has to handle very large equipment with GVW ratings of up to 285 tons!

Hydro Engineering Inc is in its 32nd year of operation.

Recycle 100% of all water captured!

ISO9001-2008 certificate, UL, CSA and CE certified.
