

Introducing MyHome's Web Based Client Communication Software

MyHome Design and Remodeling is proud to present its custom web based client communication and project management software. We believe that using our new software will improve client experience, will allow for successful project completion, and enable us to exceed customer's expectations.

Our advanced web-based software will streamline the communication process and will allow our clients to enjoy the following great features among others:

1 Construction Photo Album
A simple photo management tool which allows the remodeling consultant or project manager to update current photos from a client's ongoing remodeling project.

2 Change Orders
Allows the client to monitor and approve any of the remodeling project's change orders. This streamlines the project itself by providing clarification and by saving time and confusion.

3 Schedule and Events
Provides tracking capabilities regarding special events, upcoming holidays, building work closures and more.

4 Warranty Management
MyHome is the only remodeling company in New York City which provides a 5-year limited warranty. This tool enables the client to file claims for warranty work and for MyHome to be able to service those claims as soon as possible.

5 Plans and Documents
Gain access to your remodeling project's documents for years to come, such as building approvals, drawings, material lists, paints used and more.

6 Constant Communication
We send automatic emails and text message alerts that notify the client when there is new information regarding their remodeling project.

MyHome is one of New York City's leading complete, kitchen remodeling and bathroom renovation companies. MyHome specializes in kitchen and bath remodeling as well as complete renovation projects. MyHome is licensed to operate in New York City, with showroom locations in Midtown Manhattan and Paramus, NJ.

Our team of designers and in-house licensed contractors will take you through a step-by step remodeling process, from designing your dream kitchen, bathroom and/or apartment to selecting materials, obtaining the proper permits and executing the actual construction phase* – MyHome is your one-stop-shop for everything that's kitchen and bath.

Our kitchen and bath showrooms are fully stocked with state of the art kitchen cabinets, bathroom vanities, hardware and accessories, backsplash options and tiles – everything you'll need is all under one roof. MyHome will supply and install everything for you – our goal is for you not only to enjoy your new kitchen, bathroom or renovated space, but to also learn about the process itself – we'll walk you through this sometimes difficult path hand-in-hand, until you are satisfied with the result and since all of our projects are under warranty you'll have peace of mind in the years to come.
