

INTRODUCING THE COMPLETELY REVAMPED

EXECUTIVE PRESENTATION SKILLS™ 2015

Also NEW for Executive Presentation Skills™ 2015:

- Improved “look & feel”
- More time spent on building presentation content
- Participant workbook is more visual than textual
- Expanded Tips card

If you've never taken Executive Presentation Skills™, now's the time. We've revamped our flagship course to be even more interactive and engaging. You'll walk away with concrete takeaways that will make you a more effective presenter.

■ **Storytelling Method** - Storytelling, when incorporated correctly, can make for a very persuasive presentation. You will learn the storyboarding process and apply it to your own presentation in class.

■ **Highly Interactive** - If you think you're going to sit back and be lectured to for 2 days, think again. This class will get you up out of your seat and exercising the skills you learn immediately.

■ **Actionable Takeaways** - There are auditory learners and then there are visual learners, and most of us are the latter. We've added in more visuals for the key skills, enabling you to more easily recall what you've learned and apply it to your current profession.
