Welcome Messages

Greetings from the Governor

Greetings!

As Governor of the State of Nevada, it is with great pleasure that I welcome you to the 3rd International Conference and Exhibition on Food Processing & Technology hosted by OMICS International Inc. The OMICS International through its Open Access initiative is committed to make genuine and reliable contributions to the scientific community. OMICS International Conferences make the perfect platform for global networking as it brings together renowned speakers and scientists across the globe. I commend you for having exciting and memorable events filled with enlightening interactive sessions. Thank you for bringing this dynamic exposition to our great state.

As Governor of the great State of Nevada, I would like to express my appreciation to the OMICS International for making this extraordinary conference a possibility.

Greetings from the Governor

Greetings!

As Governor of the State of Illinois, I am pleased to welcome everyone gathered for the International Conference on Women's Health, Gynecology, & Obstetrics in Chicago, which is organized by the OMICS Group.

Illinois is honored to serve as host for this impressive gathering. With a theme of Best Practice and Research in Clinical Obstetrics and Gynecology, this year's conference promises to provide its attendees access to recent discoveries and advances in women's health care. This conference is an excellent opportunity for scientists, women's health advocates, public policy experts, health care providers, academics and students from all over the world to gather and discuss developing women's health issues. I commend your dedication to the pursuit of advancing women's health care. The Land of Lincoln is honored to host you as our esteemed guests. On behalf of the people of Illinois, I offer my best wishes for a memorable and productive conference.

Greetings from the Nobel Laureate

Dear Colleagues,

As a member of organizing committee of the 4th World Congress on Virology it is my pleasure to welcome you to this important event.

We expect that this decade will see substantial advances in the field of Virology. My own work in the area of virus-linked cancers, in particular HPV 16 and HPV 18 showed us the potential in this field. Thus, I would like to make a few remarks on the important stream topics of the conference. I am very happy and delighted to participate at this event and anticipate interesting discussions with my colleagues at San Antonio in Virology-2014.

Once again I am delighted to invite you to take part in this conference.

Greetings from the World Food Prize Laureate

My Dear Fellows,

Being as the Scientific Advisor for the 3rd International Conference and Exhibition on Food Processing & Technology (Food Technology-2014) it is my pleasure to welcome you all to this important and prestigious event. Conferences like this one may help to speed up the development of effective development in food technology, nutrition and public health.

Once again I am delighted to invite you all to take part in this conference and also to make the conference a grand success.

Stress Management Summit

July 13-15, 2015 Philadelphia, USA

Theme: *“Novel discoveries and strategies for management of stress”*

Omics Group International Conferences invites all the participants across the globe to attend “**Stress Management Summit**”. This conference will be held at Philadelphia, USA hosted by OMICS Group Conferences. The main theme of the conference is “**Novel discoveries and strategies for management of stress**” which covers a wide range of critically important sessions. The conference would lay a platform for interaction among the experts throughout the world and aims in accelerating the discussion for management of stress which is major issue for youth throughout the globe.

As per Statistics, United States of America is the country where maximum funds have been allotted for research on Stress. There are more than 100 universities throughout the country where research on stress is going on and more than 25000 psychiatrists are involved in it. Top Associations and top stress medicine producing Pharmaceutical industries are also located in United States. The event has been kept in the city of Philadelphia because most of the Post-traumatic stress disorders rehabilitation centers are confined in and around Philadelphia. Apart from this Philadelphia is also nation’s fourth largest consumer media market. So event can be easily popularized.

Theme: “*Global research and therapeutic approaches towards psychiatry*”

**Association of Psychology and Psychiatry for
 Adults and Children**

It's our pleasure to welcome you to Euro Global Summit and Medicare Expo on Psychiatry, during July 20-22, 2015 at Barcelona, Spain. The theme of the conference is based on “**Global research and therapeutic approaches towards psychiatry**”. The combined treatment of psychiatric medication and psychotherapy has become the most common mode of psychiatric treatment in current practice. Psychotherapy is thought to be effective for the treatment of a variety of conditions, including mood, anxiety, personality, eating, substance abuse, tic, and psychotic disorders. Therefore, it is very useful to bring together experts from the field of psychiatry for discussions of the latest advances and ideas, and to stimulate interdisciplinary interactions. Conferences like this one may help to speed up the development of effective therapies for various psychological disorders.

Rising rates of depression and suicide are among the most obvious signs of the increase in mental illness resulting from the economic crisis in Spain. According to WHO around two million people in Spain with mental illness do not receive any mental health care. About 27% of the adult population had experienced at least one of a series of mental disorders which includes problems arising from psychosis, substance use, depression, eating disorders and anxiety. Neuropsychiatric disorders are the second cause of disability-adjusted life years (DALYs) in Europe, it accounts for about 19% whereas cardiovascular disorder causes 4% disability-adjusted life years. Mental illness affects people of all ages having a significant impact on many young people.

4th International Conference & Exhibition on Neurology & Therapeutics

Neurology-2015

July 27-29 2015 Rome, Italy

Theme: *“Novel Therapies in Neurosciences and Neurological disorders”*

It is our pleasure to invite you to the 4th International Conference and Exhibition on Neurology & Therapeutics that will be held in Rome, Italy on the 27-29th of July 2015.

This year, the meeting will feature, an exciting scientific program focused on Novel Therapies in Neurosciences and Neurological disorders, with latest developments in early and late stage drug development. The conference will include plenary lectures, symposia, workshops and poster sessions reflecting the state-of-the-art research in Neurosciences and clinical practice in major neurological indications. Distinguished specialists from around the world will present their newest research findings and latest achievements in their area of expertise. A dedicated interactive young Neurologists forum will allow for continuous education of young scholars which will further support their clinical development. Novel therapeutics, diagnostics and case studies in variety of neurological disorders will be presented at the plenary session. Neuroimaging and Neurorehabilitation Workshops will provide the meeting with updates in these respective fields.

Neurological disorders are diseases of the brain, spine and the nerves that connect them. There is ample evidence that pinpoints neurological disorders as one of the greatest threats to public health. There are more than 600 diseases of the nervous system, such as Alzheimer's disease, brain tumors, epilepsy, Parkinson's disease, and stroke as well as less familiar ones such as frontotemporal dementia. Europeans are plagued by mental and neurological illnesses, with almost 165 million people or 38 percent of the population suffering each year from a brain disorder. With only about a third of cases receiving the therapy or medication needed, mental illnesses cause a huge economic and social burden, it found the cost burden of these and neurological disorders amounted to about 386 billion euros (\$555 billion) a year. An estimated 6.8 million people die every year as a result of neurological disorders. Neurological disorders: public health challenges describes and discusses the increasing global public health importance of common neurological disorders such as dementia, epilepsy, headache disorders, multiple sclerosis, neuroinfections, neurological disorders associated with malnutrition, pain associated with neurological disorders, stroke and traumatic brain injuries.

4th International Conference and Exhibition on Addiction Research & Therapy

Addiction Therapy-2015

August 03-05, 2015 Florida, USA

Theme: *“Accentuate knowledge and explore new treatment regimen for Addiction”*

Addiction Therapy-2015 focuses on the latest advancements in Addiction Rehabilitation and explained about various addiction sources making the audience to understand the alteration caused in human behavior and psychological activities by disorders like fetal alcoholic syndrome. This three day event provides a perfect platform for leading scientists, researchers, decision-makers and other players to gain the latest information on topics of current research like Addiction Genetics, Drug addiction and neuro-toxicology and their significance in clinical research and health diagnostics.

The United States addiction pharmacotherapy market, currently valued at \$2 billion, is expected to reach a value of \$2.9 billion by 2012. Over 30 medications are in planning and testing stages to counter alcohol abuse and narcotic and nicotine dependencies. The 41% growth is expected as a result of increased demand for treatment medications that are more tolerable to people who are unable to tolerate currently available therapies.

Theme: "Developing trends and new advances in stroke treatment & prevention"

Every year, 15 million people worldwide suffer a brain stroke and is the second leading cause of disability, after dementia. Disability may include loss of vision and speech, paralysis and confusion. So with this motive, we have been created a common platform to discuss various topics related to brain stroke and with great pride and honor, we would like to invite you to the "Global Summit on Stroke" during August 03-05, 2015 Birmingham, UK.

Conference is focusing on the theme "Developing trends and new advances in stroke treatment & prevention"

Stroke-2015 Conference will present the latest research and techniques in treating and preventing stroke. Renowned experts along with the best and brightest young clinicians will have the opportunity to exchange ideas and information and lay the groundwork for future collaborations.

Sleep Disorders and Medicine

August 10-12, 2015 San Francisco, USA

Theme: *“Medical conditions related to sleep disorders and advanced sleep therapy”*

OMICS International invites you to attend the Annual Summit on Sleep Disorders and Medicine popularly known as Sleep Medicine-2015, which is going to be held during August 10th -12th, 2015 at San Francisco, USA.

Sleep Disorders and Sleep Therapy is a cross-disciplinary area concerned with the psychological and physical health conditions related to sleep disorders and conventional and advanced sleep therapies. The main goal of **Sleep Medicine-2015** is to illuminate the gravity of the topic, how it affects our day to day lives, prevention and stairway to a healthier tomorrow.

Sleep Medicine-2015 scientific sessions focuses on understanding sleep disorders and sleeping problems, medical conditions associated with sleep disorders, effect of sleep disorders on the human body, conventional sleep medicine and sleep therapy and exciting innovations in every area of Sleep Disorders and Advanced Sleep Therapies. Sleep Medicine-2015 encompasses the popularly known causes and types of sleep disorders and also reveals the underlying psychological disorders and other unknown causes for disrupted sleep patterns. Pediatric sleep disorders throws light upon the sleep disorders that can affect children and how it effects their development. Trends in sleep medicine will focus on a variety of medical and surgical specialties including Neurology, Pulmonary Medicine, Psychiatry, Otolaryngology, Dentistry Bariatric Surgery and Nutrition.

International Conference on Brain Disorders and Therapeutics

Brain Disorders-2015

August 24-26, 2015 London, UK

Theme: *“Exploring the challenges and recent innovations in prevention, diagnosis and treatment of Brain Disorders”*

It is our pleasure to welcome you to the International Conference on Brain Disorders and Therapeutics during August 24-26, 2015 at London, UK. The conference will be organized around the theme “Exploring the challenges and recent innovations in prevention, diagnosis and treatment of Brain Disorders”.

London is the most populous city in the United Kingdom. There are about 15 Universities in and around London which are working in the field of Brain disorders. Around 1000 neurologist, psychiatrist and neurosurgeons are working exclusively on brain disorders in London. Along with professional services, media companies are concentrated in London and the media distribution industry is London's second most competitive sector.

Brain Disorders are the most common cause of serious disability and have a major but often unrecognized, impact on health and social services. There are 10 million people in the UK living with a neurological condition which has a significant impact on their lives. Mainly stroke, epilepsy, dementia, headache and head injury are the neurological conditions suffered in UK. It has been estimated that the lifetime risk of developing brain and other central nervous system cancer is 1 in 133 for men and 1 in 185 for women in the UK. Each year 600,000 people (1% of the UK population) are newly diagnosed with a brain disorders condition. Primary brain tumors represent about 1.6% of all tumors diagnosed in the UK. The aggregate costs of all mental disorders in the United Kingdom are £32 billion.

3rd International Conference on Alzheimer's Disease & Dementia

Dementia-2015

Toronto, Canada
August 31 - September 02, 2015

Theme: *“Diagnosis Approaches of Dementia and Alzheimer's Disease”*

It's our pleasure to welcome you to the 3rd International Conference on Alzheimer's Disease & Dementia during August 31 - September 02, 2015. The main theme of the conference is **“Diagnosis Approaches of Dementia and Alzheimer's Disease”**. **Dementia-2015** would lay a platform for the interaction between experts around the world and aims in accelerating scientific discoveries.

Dementia, including Alzheimer's disease, is one of the biggest global public health challenges facing our generation. Worldwide, at least 44 million people are living with dementia this number is expected to double by 2030 and more than triple by 2050 to 115 million. Already 62% of people with dementia live in developing countries. Today, over 35 million people worldwide currently live with the condition. This number is expected to double by 2030 and more than triple by 2050 to 115 million. No treatments available to slow or stop the brain damage caused by Alzheimer's disease, several medications can temporarily help improve the symptoms of dementia for some people. Globally, dementia cost \$600 billion a year.

Theme: *“New Insights of Advanced Research and Treatment strategies in Epilepsy”*

It's our immense pleasure to invite you to attend the International Conference on Epilepsy and Treatment, during September 21-22, 2015 at Baltimore, USA. The theme of the conference is based on “New Insights of Advanced Research and Treatment strategies in Epilepsy”. Epilepsy-2015 event will provide two days of robust discussions for the treatment of various types of Epilepsy and its effects in pregnant women, Infantile Seizures, Genetic causes, mutations and other novel diagnostic and therapeutic strategies of Epilepsy. It will also explore new ideas and concepts on a global scale.

Epilepsy is a chronic disorder of the brain that affects people of all ages. According to WHO (World Health Organization) statistics, Around 50 million people in the world have epilepsy. The estimated proportion of the general population with active epilepsy (i.e. continuing seizures or the need for treatment) at a given time is between 4 to 10 per 1000 people. Nearly 80% of the people with epilepsy are found in developing regions. However, some studies in developing countries suggest that the proportion is between 6 to 10 per 1000. In developed countries, annual new cases are between 40 to 70 per 100 000 people in the general population.

Addiction Therapy-2014

The 3rd International Conference and Exhibition on Addiction Research & Therapy was organized by OMICS International during August 4-6, 2014 at Hilton Chicago, Northbrook, USA. With the support and contribution of the Committee Chairmen, Dr. Kenneth Blum and Dr. Rajendra Badgaiyan, we successfully hosted the event at the conference venue. We are proud to announce that the prestigious addiction organizations like Dominion Diagnostics Inc., USA; American Academy of Health Care Providers in Addiction Disorders, USA; and PARfessionals, USA supported the event being official sponsor partners and put forward their contributions for the grand success of this event.

Also, the conference proceeding was encouraged through the wonderful symposium by Dr. Subhash C Pandey, University of Illinois, USA chair of the session on the title as "Molecular and Epigenetic basis of Alcoholism" with his eminent research team. A workshop session on "Bringing it all together: Valuing the expertise of lived experience of recovery from a multicultural perspective" organized by, Ms. Jorea Kelley Hardison, Founder, PARfessionals Peer Advocates For Recovery, USA. Ms. Deb Hamilton from Dominion Diagnostics Inc., USA introduced various addiction testing & treatment strategies in the form of exhibition presentation at the venue.

Neuro-2014

The 3rd International Conference & Exhibition on Neurology and Therapeutics organized by OMICS International was successfully held at Hilton Philadelphia Airport, Philadelphia, USA during September 08-10, 2014. The conference was organized with the theme "Novel Therapies in Neurosciences and Neurological Disorders"

All the keynote sessions, speaker sessions, Special session, workshop, symposium, and student poster presentations focused on the specific theme of the conference "Novel Therapies in Neurosciences and Neurological Disorders" The theme of the conference spurred the sessions and provided an insightful and excellent knowledge on the upcoming advances, research, and technology in neurology therapeutics.

On day 2, Jacqueline Sidman conducted a Workshop on "Unravelling defense mechanisms: How the subconscious mind releases early painful memories in order to heal physical, behavioral and emotional problems." On day 2, Special session on "CNS drug development perspectives for young neurologists" was taken up by Marie Trad, Quintiles, France. Both the workshop and the special session discussed the major breakthroughs and developments in the field of neurology.

On day 3 symposium on "Stem cells for Neurological Disorders" by Guang-Xian Zhang, Thomas Jefferson University, USA discussed the Novel Therapies in Neurology.

Dementia-2014

The 2nd International Conference on Alzheimer's Disease and Dementia was organized by OMICS International during September 23-25, 2014 at Valencia Convention Centre, Spain. With the support and contribution of the Organizing Committee Members, we successfully hosted the event at the conference venue.

Active participation and generous response was received from the Organizing Committee Members, Editorial Board Members of OMICS Group Journals, scientists, researchers, as well as experts from Alzheimer's Disease and Dementia, Non-government organizations, and students from diverse groups who made this conference as one of the most successful and productive events in 2014 from OMICS Group. The conference was initiated with a warm welcome note and the Book Launch from Honorable guests and the Keynote forum lead by Dr. Sudhakar Yakkanti, Honorable President, OMICS Group Inc. The proceedings went through interactive sessions and panel discussions headed by Dr. Lydia Gimenez Llord, Autonomous University of Barcelona, Spain and Dr. Melinda Martin-Khan, the University of Queensland, Australia honorable Moderator for the conference.
