

TRiLOC® GPS LOCATOR

iLOC
TECHNOLOGIES

Welcome to iLOC Technologies,
manufacturer of award winning
Personal GPS Tracking and Security
products for individuals and
businesses.

The TRiLOC® GPS Locator is the next generation of Wandering and Fall Notification and mobile Personal Emergency Response Solutions (mPERS). Wearable like a watch, TRiLOC® incorporates 2G/3G/4G cellular, GPS and Bluetooth™ 4.0 technologies. TRiLOC® includes a lockable clasp, SOS button, two-way voice, waterproof to 3ft (1m), lightweight at only 3.1oz (88g), takes only 1 ½ hours to charge and operates over 48 hours. Setup and tracking is easily done using the iLOC TrackNow™ secure web site or Smart Apps for iOS and Android phones.

The TRiLOC® GPS Locator was designed specifically for individuals with special needs as well as lone workers. iLOC's first hand knowledge of these market needs helped define the technology utilized. In addition to the state-of-the-art technology, iLOC took into consideration self-esteem, discretion, simplicity, and scalability to enhance the end user experience. In an emergency, when time is of the essence, no other mPERS device on the market today communicates alerts as fast as TRiLOC® does and all communication with the TRiLOC® GPS Locator is fully secure and encrypted.
