### **CDS First Service Provider to Deliver Comprehensive Relativity Suite Complete Discovery Source Actively Deploying All Modules of the Platform for End-to-End eDiscovery Services**

NEW YORK – Complete Discovery Source, a leading eDiscovery company, has announced that they are the first service provider to deliver clients the full Relativity suite for active cases. An Orange-level Relativity Best in Service partner, CDS is a pioneer in supporting the full EDRM workflow in Relativity. CDS has been a Relativity Best in Service partner for five years.

“For our clients, we trust Relativity for each stage of the eDiscovery life cycle,” said Garrett Bendel, COO of CDS. “The seamless modules provide the workflows required to support the most demanding discovery projects. It’s exceptionally reliable, and it consistently produces the results that our clients demand.”

As a fully featured, web-based eDiscovery platform, Relativity provides a comprehensive e-discovery solution that allows users to streamline and customize their workflows during legal hold, collection, processing, and review, along with providing analytics, computer-assisted review, and mobile case prep. CDS is seeing strong results with end-to-end implementation. For example, CDS processed more than 8 TBs of data in just a few weeks, while pumping data directly into a Relativity workspace, reducing the amount of time it took to get native files ready for review. CDS also recently helped a client with a government request by using Relativity Assisted Review to reduce the number of documents for manual review by 85 percent.

“CDS is a long-time partner, and we’re excited that they chose to adopt the entire Relativity stack to deliver eDiscovery solutions for their customers,” said Andrew Sieja, president and CEO of kCura. “Both of our teams are committed to providing great service and continuing to make eDiscovery easier and more efficient.”

Complete Discovery Source will be upgrading to Relativity 9, the latest Relativity release, in February 2015, which will also include CDS’ proprietary dashboards and add-ons. CDS will be meeting with clients at Legal Tech New York February 3-5, 2015 to demonstrate its managed services offering, end-to-end Relativity platform and proprietary software.
