WHAT'S NEW & WHY SECURE VIEW 4?

Now with Advanced Upgrades and New Features!

Secure View pioneered the mobile forensics industry and continues to create state-of-the-art forensic tools. We specialize in making quality software for Law Enforcement, Consulting, Corporations, Military and Civil, Higher Learning Industries and More!

We are proud to be the first mobile forensic company to introduce **ACCE Analytics** (Advanced Cross Case Examination). With this break through it is even easier to build a case by automatically running data against hundreds of past cases for increased conviction rates.

svConnect- This new feature allows for Advanced Data Acquisition through remote access. Increase your capabilities by utilizing our in-house tools and high powered servers to access more data from mobile phones.

svDetect- Industry first mobile forensic software to offer ACCE (Advanced Cross Case Examination) Analytics. This feature allows new evidence to be run through old case files to increase conviction rates.

Congratulations to the following Law Enforcement Recipients of the 2014 Susteen Community Outreach and SVNG Mobile Forensics Grants* These agencies and the communities they serve, will benefit from increased mobile forensics capabilities due to their acquisition of Secure View 3 mobile forensics software and our Next-gen systems.
