Harmony up-do

A mix of volume for these intertwining locks. The flowing movement from the front pairs perfectly with the gentle curves of this easy to wear style.

Summer Lights

Far away from the urban jungle, Camille Albane escapes from the daily grind to live out summer fantasies. The season blooms with freedom that illuminates feminine beauty and sparks a sense of adventure. The Camille Albane woman's motto is no restrictions, no hang-ups, but radiance always and forever! The sun shows off her color while the cut reveals her femininity. Smooth or wavy, her hair is enhanced by contrasting balayage highlights for a sun-kissed look. This is the season to pursue adventures, express your desires and live radiantly.

Sunny bob

Glamorous bob with light, breezy waves. The textured, matte result is ultra-feminine. The beach-inspired movement of the cut will show off the subtle, contrasting balayage highlights.

Fresh layers

A summer cascade of windswept locks. The layered lengths fall luxuriously across the shoulders. A natural freshness comes through with the subtle balayage highlighting that combine high and low lights.

Seaside bob

A supple, flowing bob with a “seaside” spirit created using Camille Albane natural hair extensions for volume and texture. The front is slightly smoother to accentuate the waviness of the longer locks. The face is framed with light, vibrant energetic locks.

Headband up-do

This headband styling with retro volume is done on a short bob. This hairstyle plays with the contrast between the volume piled on top and the straight, flat, long fringe.

Light bob

A plunging asymmetric bob accentuated by the smooth front locks. The Sun-kissed blond is accompanied by warm, golden highlights. The balayage highlighting at the top of the head perfectly imitates the natural highlights and contrasts created by summer sun.

Boyish femininity

A swept-back garçonne look. The flat sides contrast with the high volume, enhanced by textured roots on top.

Soft long locks

Softness embodied by a layered style made more exuberant with a little asymmetry. The balayage highlighting with extreme depth gives this Blond Zenith a unique shine.

On the cover: **Ready-to-wear bob** The bob is updated with subtle layers for an easy, ready-to-wear look. The soft, straightened locks catch the light to illuminate the face. As an evolution to the "Bronde" trend, Camille Albane proposes the Venetian Brunette: a warm brown with copper and caramel tones in stunning highlights.
