iPatientCare, Inc., a pioneer in mHealth and cloud based [ambulatory EHR](#), integrated Practice Management and Patient Portal solutions, proudly announced its significant achievements throughout year 2014.

Year 2014 became the year of awe-inspiring recognitions and achievements for iPatientCare. Medical Economics recognized iPatientCare as one of the [Top 50 EHR Software Companies 2014](#) in an exclusive report unveiled to help physicians make better software decisions. Editorial staff selected vendors based on their status as a complete and ambulatory EHR solution as well as current revenue estimates.

The most important [achievements of iPatientCare during the year 2014](#) were ONC 2014 Certification as Complete Inpatient EHR which is in addition to the ONC 2014 Certification as Complete Ambulatory EHR that was received a year ago, listed in Capterra Top 10 EHR, Black Book Top 10 Mobile EHR, SureScripts White Coat Quality Award, CMS designated Test EHR, CMS Qualified PQRS Registry for 2014, and a pioneer in extending enterprise EHR to Google Glass and Android Ware SmartWatches.

iPatientCare EHR and Practice Management System has been included on LabCorp Certified Vendors list for ICD- 10 Readiness in 2014. The certification represents LabCorp's assurance that it can receive ICD-10 diagnosis codes transmitted from iPatientCare EHR and integrated PMS.

"It's always prestigious to get achievements and acknowledgments, but the best works comes when entire team passion get engrossed to build the organization on peak. The distinctiveness of iPatientCare has been its steady, also the vigorous growth with the least customer attrition rate heard in this industry. Ultimately, we are assured of providing better outcomes at lower costs to our providers with more innovations respective to R2015, which was announced at NUCON 2014", said Pranav Patel, General Manager, iPatientCare, Inc.

iPatientCare to unleash mHealth and wearable technologies for patient engagement and remote monitoring

iPatientCare, Inc.

iPatientCare, known for its Ambulatory and Inpatient EHR, announces to release new and innovative products at HIMSS15

Woodbridge, NJ, January 22, 2015 —iPatientCare, Inc., a pioneer in mHealth and cloud-based ambulatory EHR and integrated practice management solutions, announced today its plans of attending HIMSS Annual Conference & Exhibition 2015 and demonstrate its new innovative mHealth and wearable technology products for patient engagement, remote monitoring, and data analytics/dashboarding.

“The Annual HIMSS Conference attracts more than 38,000 healthcare industry professionals globally and the exhibition floor offers great opportunities to innovative technology companies like iPatientCare to showcase their innovations and interact with the attendees. iPatientCare has been known for its award winning, certified product suite for healthcare providers nationally. This is the time for iPatientCare to demonstrate its innovations in Patient Engagement, Data Analytics and Mobility to attendees from United States, Canada, Europe, Middle East and Asia. iPatientCare has ambitious plans to offer its innovations in non-EHR healthcare IT to emerging growth economies. HIMSS 2015 is an ideal platform and forum for taking off these plans, and hence, I am very excited about the Show.”, commented Udayan Mandavia, President/CEO, iPatientCare.

“I vividly remember showcasing iPatientCare’s mobile suite of products on Palm and Pocket PC devices at HIMSS 1998 through 2003, being part of Palm’s Pavilion of Enterprise Solutions and US Army’s MC4 Product Office. ”, said Kedar Mehta, CTO, iPatientCare. “We still continue to push the envelope of our innovations in mHealth space using Google Glass and SmartWatches with a focus on engaging patients. iPatientCare compliments its mHealth innovations with a strong cloud-based architecture for secure data-exchange and robust analytics/mining tools. iPatientCare’s significant achievement within healthcare IT is not limited a great EHR and integrated ambulatory practice solutions. It has been lately non-EHR technologies which stay EHR agnostic and offer integration to disparate health IT systems. We are very eager to meet like-minded attendees and exhibitors, and additionally, showcase our futuristic innovations.”, he further added.

HIMSS 2015 is not too far. This largest US healthcare IT Show kicks-off on April 12, 2015 with great fanfare and gala receptions/events and lasts until April 16th. iPatientCare looks forward to meeting with other innovators and influence leaders at booth 2941 on the exhibit floor.
