

## **Signature Hospice, Home Health, Home Care Adds Two Key Leaders to Management Team**

*The home-based health care services organization hires two experienced health care leaders as the company continues to experience significant growth in key markets.*

Wilsonville, Oregon – Signature Hospice, Home Health, Home Care is excited to announce the addition of two new leaders to its management team. Timothy Shatzel takes on the role of Vice President of Regional Operations and Britagne Richey, LPN, CDDTS, c.CPHQ, as a Regional Director of Clinical Operations.

“I’m excited to have Tim and Britagne join our team,” says Bob Thomas, PT, and President of Signature. “They each bring a wealth of knowledge and insight from their long careers as leaders in various sectors of health care. Each will play a significant role in helping Signature continue its commitment to quality care and patient outcomes as we grow and improve our services to our patients, clients, and team.”

Shatzel joins Signature after working for regional and national healthcare providers in key leadership and management roles. Shatzel is known for his ability to foster and mentor talent from within the organization while successfully growing the customer base. “I came to Signature because of Bob Thomas’s style of leadership and the great reputation Signature Services has throughout the region,” says Shtazel. “I’m grateful for the opportunity to serve our patients alongside the rest of this fantastic team.

Richey has built her healthcare career on a proven track record of enacting protocols for the companies she has represented to adhere to Medicare guidelines, follow physician orders and completes accurate documentation. Her past experience includes roles as the Director of Quality Assurance and Risk Management, Compliance Consulting, Case Management, and as a Quality Control Nurse. “Having the responsibility for the quality of care delivered to patients and relevant documentation is my passion,” says Richey. “Formulation, revision, implementation and evaluation of standard policies and procedures is one of my strengths.”

The addition of these two key leaders follows the announcement of Signature hiring Anjie Berryman as a Vice President of Regional Operations. Berryman is a licensed Speech-Language Pathologist with experience working in Health Care Management for the past 15 years including management of over 40 Home Health, Skilled Nursing Facilities and Outpatient agencies in multiple states. “This vital experience included the opportunity to oversee acquisitions and start-ups of new Home Health Agencies and clinics. I am excited to apply that experience to Signature’s plans for future growth,” says Berryman.
