

A Global Marketplace for Government Contractors, Grantees and Consultants®

New one-stop global marketplace provides on-line services enabling government contractors, grantees and consultants to win and keep more business.

GOVPROP.com is where businesses find, hire, and collaborate with consultants specializing in government contracts, grants, and tenders. Our marketplace includes former senior government officials and proven professionals whose experience and certifications are vetted to assure successful results and customer satisfaction.

GOVPROP.com also provides real time market intelligence enabling you to stay ahead of competitors, while finding opportunities and win government contracts and grants. Use our secure collaboration environment to share and edit proprietary material across any device maintaining control over every file.

Use our patent pending Talent Matching Engine™ to instantly match your projects with the right consultants to respond to solicitations, task orders, grants, and tenders. Obtain business services and find experts including proposal and pricing specialists, technical subject matter experts, attorneys and accountants, lenders, or even commercial real estate, marketing and communications specialists.

GOVPROP.com focuses on the full range of government requirements from agriculture, to defense, education, energy, transportation and national security to meet highly specialized government regulatory requirements.

Take advantage of our GOVPROP Academy – your comprehensive business and proposal development knowledge center with over 50 topics and 200+ write-ups. Benefit from industry best practices and advice from seasoned government business growth executives to help you win and keep more contracts and grants.

If you're looking to enter the government market, or grow your existing business, GOVPROP.com is the right choice. We invite you to join us now!
