### A Better Way to Process Credit Cards

The most widely-used and award-winning management software, SiteLink, has built a better way to process credit cards: SiteLink Merchant Services. We go direct to the processor without a 3rd party gateway, provide consolidated statements and a single deposit for all card brands. SiteLink can help you meet the required PCI-compliance mandate. SiteLink Merchant Services' EMV integrated solution enhances card security and will help you avoid the October 2015 liability shift. For merchants to avoid this liability after October 2015, chip and pin cards must be accepted through EMV equipment. Choose SiteLink as your single-source payment and management software provider.

#### SIMPLE.

The SiteLink team

- Offers a rate structure that best meets your business needs
- Educates you about statements and interchange fees
- Shows you how to qualify for the best interchange fees
- Provides online tools to manage all payments more efficiently
- Demonstrates how SiteLink seamlessly integrates credit card and ACH processing

#### ENHANCED SECURITY.

Our commitment to the highest level of online security does not waiver. SiteLink Merchant Services™ and Sitelink Web Edition™

- Reliable and secure servers run continuously since their introduction in 2006
- Protects data from breach, fraud, and theft
- Implements strong access control measures
- Safeguards and monitors networks and servers
- Conducts PCI on-site security assessments, including quarterly network scans by an Approved Scan Vendor (ASV) to confirm compliance with Data Security Standards (DSS)

#### SUPERIOR VALUE.

Gain a competitive edge with SiteLink, the one trusted single source that delivers the best technology for all your operations.

- Online customer payments
- Quickly accept payments with funding to the bank of your choice
- One deposit and consolidated statement (Visa, MasterCard, American Express, Discover)
- Hands on PCI security experts to help you become PCI-Compliant
- 7-day/week customer service

*Securely process payments, reduce costs and boost productivity!*
