SiteLink eSign™

Boost Online Rentals and Reservations with Electronic Signature

SiteLink eSign™ provides lease auditing and a legally binding electronic signature for SiteLink Web Edition™ software, websites, and call centers. SiteLink eSign™ offers a hassle-free way to expedite signature agreements anytime from anywhere and track your progress in real-time! It's as easy as:

Auto-Fill Lease	Prepare a lease for signature on websites or at your store
Email for Signature	Send for sign-off from call centers
Electronically Sign	Sign from anywhere
Archive	Easily locate executed documents
Legally Defend	Certificates and forensics ensure tamper proof documents
Audit Leases	Lease audit reports save time and money

Document Features

- ✓ Tenants sign by a mouse, a predefined font or optional electronic signature pad
- ✓ Customizable forms: special keywords to insert placeholders for signatures, initials, check box, dates and free form text
- ✓ Sign in-person, by email or a website
- ✓ Tenant and manager signature options available

Websites and Call Centers

- ✓ Contact your website provider or call center to ask about the latest SiteLink API integration for full on-line rentals and lease signing

Auditing

- ✓ View all lease history
- ✓ Review leases through every step of the process
- ✓ Automated history of every send, signature or approval activity

Manage, Monitor and Report Status

SiteLink eSign™ Console is available in SiteLink Client or Corporate Control to manage:

- ✓ Signing notifications
- ✓ Unsigned documents
- ✓ Manager approvals
- ✓ Completed documents
- ✓ Voiding documents
- ✓ Documents nearing expiration

Storage

- ✓ Completed documents securely archived for seven years after tenant move out

Legally Binding

- ✓ A certificate is embedded on last page of lease
- ✓ Saves document forensics: IP address, time stamp, document hash for tamper proof evidence

7-day/week support
