Verified Purchase (What's this?)

This review is from: Carpal Aid, Functional Support for Carpal Tunnel Syndrome 20 PIECES PER BOX - ONE SIZE (Health and Beauty)

I came across this product on amazon after trying many other cumbersome support braces with no luck. I thought since this is so different from other carpal tunnel relief products, I'd give it a try.

This is a god-send; I'm so glad I tried this - I'm finally pain free and able to go on with my daily activities.

Best part is the pressure is relieved, I can forget about it while I'm sleeping and I really like that it's not a big brace. I prefer to use it while I'm sleeping since it's a long period of time that's uninterrupted by other activities or having to wash your hand.
