# Fast Track your Business to E-commerce Success

with the feature rich multi-channel e-commerce platform, powered by Magento, that seamlessly integrates with Microsoft Dynamics ERP systems.

It takes more than just e-commerce for you to become successful; today customers are everywhere. That is why you need a solution that not only affords you access to channels like web, mobile, social media and online marketplaces (eBay/ Amazon) to increase sales but also integrates with your back end systems like Microsoft Dynamics ERP to enable you to provide the consistent shopping experience, your brand experience, across channels.

E-commerce Growth Engine

is a powerful, multi-channel and feature rich integrated e-commerce solution, powered by Magento, designed for businesses hungry for growth. The solution helps Retailers, Manufacturers and Distributors grow their online sales; paying not only for itself but also for their Dynamics ERP system in less than a year.

Grow with E-commerce Growth Engine (EGE)

Scale your Business to the Next Level

No matter the size of your business, attract and retain customers with EGE's scalable, multichannel and feature rich e-commerce platform with little incremental effort.
