

Crytico Adds Several New Partners, Including MobilityWorks

Tea, SD – March 24, 2015 – Crytico, LLC, the first and only review site that is 100% dedicated to mobility products and services, announced today the addition of several new partners including [MobilityWorks](#). These partnerships are beneficial for the growth of the entire mobility industry.

Today's news will expand the reach of consumer awareness for [Crytico](#) as well as help shape business development and grow customer satisfaction of its new partners. Among the new partners are [Adaptive Driving Access](#) which has four locations in Texas, MobilityWorks which has 34 locations nationwide, [Total Mobility Services](#) who services customers in PA and MD and [101Mobility](#) of Wilmington, NC, San Jose, CA and Sarasota, FL.

"Partners like MobilityWorks are vital to the growth Crytico and the entire mobility industry," said Monique McGivney a mobility advocate with Crytico. "Until Crytico launched, consumers of mobility products and services had difficulty finding online reviews for products that are unique to them; like [home stair lifts](#), driving aids and [wheelchair accessible vans](#). By having thousands of mobility products and the local dealers who sell and install those products in one medium, Crytico.com, it benefits everyone involved in the buying process which can be overwhelming for some consumers."

Crytico is a platform for consumers to read reviews written by their peers when shopping for a mobility device; like [home ramp](#) modifications, [wheelchair lift](#), [transfer seat](#), etc. While reading reviews for those various products, they can also obtain competitive quotes from local dealers who sell those products. After their experience with the mobility dealer and/or the product they purchased, customers can leave their feedback for future consumers by rating and writing reviews on Crytico.com. A unique feature of Crytico is the authentication of all reviews that are written on their website. This authentication process involves a phone call to the reviewer to ensure legitimacy of the review.

About Crytico

[Crytico.com](#) was created by industry experts who have worked in the mobility product arena for several decades, recognizing a void of opinions on products and services customers purchase. Crytico.com is the first and only premier review site that is 100% dedicated to mobility products and services mobility dealers provide. For more information contact Monique@crytico.com.
