OnRamp Returns to HIMSS15 in Chicago, IL

AUSTIN, TX – OnRamp, an industry leading high security and hybrid hosting solutions provider with data center locations in Austin, TX and Raleigh, NC, announced today its return, for the third consecutive year, to the Healthcare Information and Management Systems Society (HIMSS) Annual Conference - HIMSS15. The event will bring together over 38,000 Healthcare IT professionals for education, networking and exhibition at the McCormick Place Convention Center in Chicago, IL from April 12-16, 2015. OnRamp will attend to showcase the company's HIPAA Compliant Hosting solutions which are rooted in the company's colocation, private clouds and cloud delivered services and backed by the company's Full7Layer Support.

"Over the past few years, we have developed the most comprehensive HIPAA compliant hosting solutions on the market," stated OnRamp Founder and HIPAA Compliance Expert Chad Kissinger. "Understanding the important role data centers play in maintaining the confidentiality, availability and integrity of protected health information, the evolving security threat landscape and the legal and financial penalties that comes with non-compliance, we have built our solutions to address these specific concerns. But going beyond what's typical of most data centers, we work collaboratively with our clients to ensure the IT environments they house within one of our state-of-the-art data centers meet these stringent compliance requirements."

The Annual HIMSS National Conference ranks as one of the largest healthcare IT and management systems gatherings in the world. Attendees who participate in the 2015 conference can select from more than 300 education sessions including: keynotes, thought leader sessions, roundtable discussions and e-sessions, plus pre-conference workshops and symposia.

Keynote speakers confirmed for HIMSS15 include:

- George W. Bush, 43rd President of the United States
- Alex Gourlay, President, Walgreens
- Bruce Broussard, CEO, Humana
- Karen B. DeSalvo, MD, MPH, MSc
- Keynote: Jeremy Gutsche, Founder of Trendhunter.com and Author of Exploiting Chaos

In addition to exhibiting their HIPAA compliant hosting offerings from Booth #4307, OnRamp will be demonstrating the company's HIPAA Risk Management Tool which was designed to assist customers in analyzing and managing the HIPAA compliance risk associated with their IT infrastructure hosted at OnRamp. For a brief overview of the company's online, proprietary tool, watch this brief video: https://www.youtube.com/watch?v=gERCzdipQUU
