(New York, New York-April 1, 2015) CityMD is proud to announce the purchase of its very own Formula One Racing Team. CityMD officially purchased the team in early March and is excited to start proving themselves on the track.

Since opening in 2010, CityMD has gained a reputation from patients as being FAST, with an average wait time of just eight minutes. Hoping to add to their FAST reputation, CityMD made the purchase of the Formula One team, they named—the CityMD “Faster is Better” Racing Team.

“We’re showing our competition that CityMD won’t be slowing down anytime soon,” said CityMD CEO, Dr. Richard Park.

Although the purchase may seem unconventional, CityMD is confident that its new racing team aligns perfectly with its brand, and will provide patients with another reason to cheer for CityMD.

Check out CityMD this season—on the FAST track!

About CityMD

CityMD has 39 offices throughout New York City, Long Island, Westchester, and Rockland counties. CityMD employs expert staff including medical assistants and technicians along with board-certified physicians who are highly trained in treating a wide variety of illnesses and injuries. Locations are open 365 days a year, welcome walk-ins for both adult and pediatric care and accept most major health insurances.
